DETAILS:

During the past several years acts of violence within California prisons have increased greatly. Much of this violence has been perpetrated by one group against another but it has also been directed against prison staff personnel. Although these groups were originally crime-oriented, outside revolutionaries have now greatly influenced them. From such beginnings we have witnessed the growth of the Symbionese Liberation Army, and its activities have shocked the nation.

The Black Guerrilla Family (BGF) has now emerged as the most violent and revolutionary group within the California prison system. It is a splinter group of the violence-prone Black Panther Party (BPP), and its leaders are former followers of Huey Newton and Eldridge Cleaver, fugitive leaders of the two factions of the BPP. BGF believes in the use of force and violence to perpetrate its revolutionary goals, which contend there is "no cure for the evils of the Western World other than through uncompromising destruction." Courts and the prison system are considered its enemies. BGF exists both in and out of prison and once a member, always a member appears to be its motto.

Re: Black Guerrilla Family

Over 1,000 members are estimated within the California prison system and while many of them are lifers and long-termers, some are being released each year. Those released are expected to remain members and function in the group's behalf. Several splinter groups of the BGF have surfaced and claimed credit for bombings and police attacks. It has been reported that BGF was profiling 100 powerful families in San Francisco and Los Angeles with sons and daughters between 18 and 36 years old who could be used as hostages against society.

OBSERVATIONS:

Our investigations to date have been limited to identifying members and reporting of information from prison sources. In view of the violent nature of the organization and the allegation of hostage situations, full investigations of all individuals identified as members are justified and necessary. It is essential that we are aware of revolutionary and extremist activities of these individuals after they are released from prison.

It is impossible to ascertain the numbers of cases that will be opened. Under present instructions to the field, most of our investigations are operated out of the organizational file. Under instructions set out in attached airtel, individual cases will be opened on each member as he is released. A large number should not be involved, as many members are lifers and long-termers.

BLACK GUERRILLA FAMILY
EM

The past several years has witnessed an increasing number of acts of violence within the California prison system. Many of these acts have been perpetrated by members of various groups formed within the prisons. The foremost of these groups has been the Black Guerrilla Family (BGF), a splinter group of the Black Panther Party. As has been indicated in your recent communications, more and more members of the BGF are being released from prison and there is evidence that these releasees are being given assignments by the BGF to carry out when they return to outside life.

Our responsibilities for investigations of this group and its members have been limited while its activities were confined to the prisons. As more members are released, the group poses a graver threat to the national security, and it is incumbent upon us to be aware of any activity by the group outside the prisons. In order to accomplish this, it is necessary to fully identify all members, be notified of their release and to insure that thereafter all revolutionary and extremist activities are followed and reported.

In line with the above, recipients should intensify their investigations of the BGF and its splinter groups known as Haunted Hunters, Baby Guerrilla Squad and Bunche Carter Assault Squad. You should identify all members, ascertain identities and locations of members who have been released from prison, and establish a system whereby you will be notified of future releases. You should determine whether those already released are engaged in any activities coming within the purview of the FBI's responsibilities. As additional members are released, you should insure activities are followed and reported.

Investigation of the organization, its activities, identification of members and the reporting thereof should be handled under the organization's case caption. Open individual cases on all members as they are released and report pertinent data developed under the individual's case caption.

All pertinent information developed in connection with these investigations should be submitted to the Bureau and interested offices in form suitable for dissemination along with your recommendations for further investigative action.

ReBuairtel 4/14/75 which set out need to intensify our investigations of captioned group and its members as they are released from prison. The following predications along with the characterization are being submitted for use in this investigation:

Suggested Predication for Investigation of Organization

This investigation is based upon information which indicates the Black Guerrilla Family (BGF) is engaged in activities which could involve a violation of Title 18, United States Code (USC), Section 1114 (Assaulting or Killing a Federal Officer), Section 2383 (Rebellion or Insurrection), Section 2384 (Seditious Conspiracy), or Section 2385 (Advocating the Overthrow of the United States Government).

Courts and the prison system are considered to be its enemies and during the past several years its members have been involved in acts which have resulted in the deaths of many inmates and prison officials. In view of its members' propensity for violence and their "membership" for life, you should insure that investigations are opened on all members released from prison.

According to this article, the FFM was formed in 12/74 at Princeton University by students formerly associated with the National Say and Change Black Schools Project, YOB, the Black Student Collective from Harvard University, Karambe Organization of New Jersey and the Peoples College of Tennessee. The FFM was described as a national organization formed to unite all black students in the struggle against

U. S. imperialism and national oppression. The name FFI originates from a student sit-in occurring 2/1/60 at a lunch counter of a store in Greensboro, North Carolina. This sit-in marked the beginning of a nationwide movement attacking various forms of national oppression.

For additional information of recipients, an article in the 3/5/75 issue of "The Guardian," a radical newspaper published in New York, disclosed the FFI has membership of several hundred with chapters on more than 20 campuses, mainly in the South and on the East Coast. This article disclosed the FFI represents a merger of various ideological trends in the black liberation movement. It indicated that revolutionary nationalism, Pan-Africanism and Marxism-Leninism are united in the FFI around anti-imperialism.

According to this article, the FFI is based in Washington, D. C., and more information could be obtained by writing the FFI, P. O. Box 22007, Washington, D. C. 20002. "The African World," identified as former organ of YGBU, was described as the new organ of the FFI and the vehicle which led to formation of the FFI.

The 2/21/75 issue of "The Militant," weekly newspaper of the Socialist Workers Party, contained an article announcing the FFI held a New England regional conference at Boston College during the weekend of 1/30/75 - 2/1/75. Speakers at this conference included Cwusu Sadaukai, Abdul Alkalimat and Eugene Locke, all national officers of the African Liberation Support Committee (ALSC). This article referred to the FFI as being organized in part by activists formerly associated with the recently dissolved YGBU.

Purpose of this airtel is to direct intensified investigation to verify status of YGBU and to initiate preliminary inquiry to determine if statutory basis exists for investigation of the FFI.

RE: FPM BY FIRST MOVEMENT (FFM);
YOUTH ORGANIZATION FOR BLACK UNITY (YOBV)

The recent issue of "The African World" lists YOBV's location as P. O. Box 2413, Washington, D. C. Previous issues of this newspaper disclosed YOBV's location as P. O. Box 20826, Greensboro. Charlotte Office reports YOBV is not carrying on any activity in Greensboro.

Recipients conduct appropriate investigation to determine status of YOBV, if its leaders are key organizers of the FFM and if "The African World" is now official publication of the FFM. WFO should determine subscriber of P. O. Box 2413, the most recent listed address for YOBV. Results of investigation should be set forth in form suitable for dissemination.

With respect to the FFM, through established sources only, recipients initiate preliminary inquiry to determine if statutory basis exists for investigation of the FFM. Handle in accordance with Manual of Instructions, Section 122. Submit results to Headquarters and interested offices, along with recommendations for further action if warranted.

An additional facet of your investigation regarding the above may involve travel to Cuba in 8/74 by affiliates of YOBV, FFM and the ALSC. This travel was reported in Bureau letter 10/24/74 captioned "Travel Matters - Cuba, IS - Cuba," no copy to Houston. Of the 35 persons making this trip to Cuba, 14 are identifiable in Headquarters files as affiliates of YOBV, ALSC or the FFM. Included were Steve Miller and Donald Isaac of Washington, D. C., and Andrienne Weeks of Greensboro, all identified in the enclosed article of "The African World" as being officers in the FFM. Also listed as taking this trip were James Virgen Thomas, also known as Tim Thomas, Washington, D. C., National Chairman of YOBV; Claude Barnes, Greensboro; Ray Henderson, Washington, D. C.; Rushelle Ann Irving, Denver, Colorado; Robert Keith, New York City; Marsha Denise Lillie, Washington, D. RE: FEBRUARY FIRST MOVEMENT (FFM);

YOUTH ORGANIZATION FOR BLACK UNITY (YOBV)

No information has been developed to date indicating the above travel was related to organizational efforts of YOBV, ALSC, FFM and/or "The African World." It may develop travel was strictly on an individual or student exchange basis. However, recipients should target informants to develop any information indicating possible Cuban involvement and if Cuba travel by these individuals related to possible formation of the FFM which was reportedly organized shortly after the group's return to the United States. Positive information in this regard should be submitted in form suitable for dissemination under appropriate caption with additional copy designated for Bureau file 157-8141 captioned "Foreign Influence in the Black Extremist Movement."

Headquarters files contain no identifiable information regarding the National Save and Change Black Schools Project, Black Student Collective from Harvard University and the Karambe Organization of New Jersey. Headquarters files disclose Peoples College, as of 1/73, is only a name utilized by Jerald McWorter, also known as Abdul Alkalimat, and not active as an organization.

You are reminded that the FBI has no interest in bona fide activities of educational institutions. Therefore, your investigation of the FFM should be handled discreetly since the FFM appears at this time to be a campus-oriented organization.

NOTE: YOBV, formerly Student Organization for Black Unity, was founded in 1969 by known black militants to organize students toward Pan-Africanism. It has published periodically "The African World." Its existence has been questionable for some time and investigation is needed to determine its status especially in view of information its leaders were instrumental in organizing the FFM. Based on this information and the fact many YOBV affiliates traveled to Cuba, preliminary inquiry should be initiated regarding the FFM.

FEBRUARY FIRST MOVEMENT
EXTREMIST MATTERS

Investigation in this matter is based on information that leaders in this organization were, and/or are leaders in extremist activities, including those of the African Liberation Support Committee (ALSC), and as such may be in violation of Title 18, United States Code, Section 2383 (Rebellion or Insurrection), Section 2384 (Seditious Conspiracy), or 2385 (Advocating Overthrow of the Government).

Sources have reported that the African Liberation Support Committee (ALSC) was formed in July, 1972. Its national headquarters is in Houston, Texas. In its statement of Principles and Programs it defined the white ruling class of the United States as the cornerstone of world imperialism and indicated that the ALSC's principal tasks were 1) to merge the black liberation struggles in the United States and Africa because a victory over United States imperialism anywhere is a victory everywhere and 2) to unite blacks in an anti-racist, anti-imperialist movement.

This document contains neither
recommendations nor conclusions of

the FBI and is loaned to your agency;

FEBRUARY FIRST MOVEMENT

In September, 1972, the ALSC leader at the time indicated that black people of the world must destroy capitalism by any means necessary including such action as that by Arab terrorists against Israeli athletes at the Olympic Games in September, 1972. In November, 1973, the current leader said Cuba is in the vanguard of the fight against imperialism and that the ALSC had a direct obligation and responsibility to maintain the development of socialism in Cuba.

All confidential sources referred to in this memorandum, except as noted, have furnished reliable information in the past.

A confidential source advised that a new organization called the February First Movement (FFM) would hold its initial meeting in Washington, D.C. (WDC), on 2/1/75. Source later reported that at this meeting Donald Isaac read a background statement re the FFM. A well known singer-pianist then performed. Source reported it appeared that most of those in attendance came for the entertainment.

FFM literature circulated at the above meeting described the FFM as an anti-imperialist Black Student organization composed of progressive students, who have joined together in a common effort to build the anti-imperialist student movement in the U.S. Its name stems from the institution of the sit-ins at a Woolworth's lunch counter in Greensboro, North Carolina, on 2/1/60, by four black students from North Carolina A & T.

FEBRUARY FIRST MOVEMENT

FFM literature describes FFM's areas of work as falling into the following categories: (1) Student Struggles, (2) Community Struggles, (3) Workers Struggles, (4) Women's Struggles, (5) Struggles of Oppressed Nationalities in the United States, and (6) Support for National Liberation Movements in Africa, Asia, the Middle East, and Latin America.

On January 29, 1975 a second confidential source advised the FFM National Office address in Washington, D.C. (WDC) is Post Office Box 22007, Washington, D.C. 20002. The actual location of this office is 473 Florida Avenue, N.W., Washington, D.C., the facility formerly utilized by the Howard University group known as the Youth Organization for Black Unity (YOBV).

A third confidential source, who is in a position to know, has advised that the above Post Office Box was rented by Roger Carlton Newell, for use by the FFM.

FFM literature dated March, 1975 furnished by a fourth confidential source, described the FFM as having three chapters in Washington, D.C. (WDC), one being at Federal City College. The first source described a five person FFM chapter at George Washington University as non-functional. Both sources have reported FFM activity in the Howard University (HU) area by persons formerly active with the YOBV, a legitimate Howard University student organization.

FFM literature furnished by the first source in March, 1975, described "The African World" newspaper as a "National Black Newspaper which contains news and analysis about black and oppressed people in the U.S.A. and across the world." This "non-profit news service" is published by the February First Movement," an

FEBRUARY FIRST MOVEMENT

anti-Imperialist black student organization." This source stated that this newspaper is published at 305 G. Street, N.W., Washington, D.C. (WDC), the printing press that also prints the National Newsletter of the ALSC.

"The African World" lists its address in Washington, D.C. (WDC) as P.O. Box 2413, Washington, D.C. The third source has advised this box was rented by Roger Carlton Newell, for use by YOBV, a student organization.

In April, 1975, the first source reported that although many former YOBV members are currently associated with the FFM, the formation of this latter group was much greater than a single changing of names. YOBV's aim was to organize a political party and attempted to attract a following from both students and community people. While being very close in structure to the ALSC, the FFM differs from that group in that the FFM is open strictly to students, where the ALSC is open to all people. Currently the FFM has no announced ongoing programs, as it is very young and developing. It encourages its members to attend functions of the ALSC and other anti-imperialist groups.

Source one continued that during the summer of 1974, in an effort to organize a successful, meaningful anti-racist/anti-imperialist organization for college students, several individuals from Washington, D.C. (WDC) and other cities travelled to Cuba to personally view how similar groups in that country operate. While there they observed that organizations composed of only students, appeared to function better. Source's opinion, formulated by personal conversation with several FFM leaders, was that no known foreign influence of any kind exists regarding the FFM or its leaders. Much to the contrary is true, in that the group is operated by its leaders, who use their own administrative ideas, as well as those patterned selectively from other above mentioned groups.

YOUTH ORGANIZATION FOR BLACK UNITY (YOBUE)

U. S. imperialism and national oppression. The name FFM originates from a student sit-in occurring 2/1/60 at a lunch counter of a store in Greensboro, North Carolina. This sit-in marked the beginning of a nationwide movement attacking various forms of national oppression.

For additional information of recipients, an article in the 3/5/75 issue of "The Guardian," a radical newspaper published in New York, disclosed the FFM has membership of several hundred with chapters on more than 20 campuses, mainly in the South and on the East Coast. This article disclosed the FFM represents a merger of various ideological trends in the black liberation movement. It indicated that revolutionary nationalism, Pan-Africanism and Marxism-Leninism are united in the FFM around anti-imperialism.

According to this article, the FFM is based in Washington, D. C., and more information could be obtained by writing the FFM, P. O. Box 22007, Washington, D. C. 20002. "The African World," identified as former organ of YOBUE, was described as the new organ of the FFM and the vehicle which led to formation of the FFM.

The 2/21/75 issue of "The Militant," weekly newspaper of the Socialist Workers Party, contained an article announcing the FFM held a New England regional conference at Boston College during the weekend of 1/30/75 - 2/1/75. Speakers at this conference included Owusu Sadaukai, Abdul Alkalimat and Eugene Locke, all national officers of the African Liberation Support Committee (ALSC). This article referred to the FFM as being organized in part by activists formerly associated with the recently dissolved YOBUE.

Purpose of this airtel is to direct intensified investigation to verify status of YOBUE and to initiate preliminary inquiry to determine if statutory basis exists for investigation of the FFM.

RE: FEBRUARY FIRST MOVEMENT (FFM);
YOUTH ORGANIZATION FOR BLACK UNITY (YOBUS)

The recent issue of "The African World" lists YOBUS location as P. O. Box 2413, Washington, D. C. Previous issues of this newspaper disclosed YOBUS location as P. O. Box 20826, Greensboro. Charlotte Office reports YOBUS is not carrying on any activity in Greensboro.

Recipients conduct appropriate investigation to determine status of YOBUS, if its leaders are key organizers of the FFM and if "The African World" is now official publication of the FFM. WFO should determine subscriber of P. O. Box 2413, the most recent listed address for YOBUS. Results of investigation should be set forth in form suitable for dissemination.

With respect to the FFM, through established sources only, recipients initiate preliminary inquiry to determine if statutory basis exists for investigation of the FFM. Handle in accordance with Manual of Instructions, Section 122. Submit results to Headquarters and interested offices, along with recommendations for further action if warranted.

An additional facet of your investigation regarding the above may involve travel to Cuba in 8/74 by affiliates of YOBUS, FFM and the ALSC. This travel was reported in Bureau letter 10/24/74 captioned "Travel Matters - Cuba, IS - Cuba," no copy to Houston. Of the 35 persons making this trip to Cuba, 14 are identifiable in Headquarters files as affiliates of YOBUS, ALSC or the FFM. Included were Steve Miller and Donald Isaac of Washington, D. C., and Andrienne Weeks of Greensboro, all identified in the enclosed article of "The African World" as being officers in the FFM. Also listed as taking this trip were James Virgen Thomas, also known as Tim Thomas, Washington, D. C., National Chairman of YOBUS; Claude Barnes, Greensboro; Ray Henderson, Washington, D. C.; Rushelle Ann Irving, Denver, Colorado; Robert Keith, New York City; Marsha Denise Lillie, Washington, D. C.; Paul Arnold Sanders, Newark, New Jersey; Eve Marie Williams, Omaha, Nebraska; Cary Michelle Winston, Boston, Massachusetts; Theresa Yvonne Jenkins, Washington, D. C.; and Douglas Thomas Layne, Boulder, Colorado.

RE: FEBRUARY FIRST MOVEMENT (FFM);
YOUTH ORGANIZATION FOR BLACK UNITY (YOBV)

No information has been developed to date, indicating the above travel was related to organizational efforts of YOBV, ALSC, FFM and/or "The African World." It may develop travel was strictly on an individual or student exchange basis. However, recipients should target informants to develop any information indicating possible Cuban involvement and if Cuba travel by these individuals related to possible formation of the FFM which was reportedly organized shortly after the group's return to the United States. Positive information in this regard should be submitted in form suitable for dissemination under appropriate caption with additional copy designated for Bureau file 157-8141 captioned "Foreign Influence in the Black Extremist Movement."

Headquarters files contain no identifiable information regarding the National Save and Change Black Schools Project, Black Student Collective from Harvard University and the Harambe Organization of New Jersey. Headquarters files disclose Peoples College, as of 1/73, is only a name utilized by Jerald McWorter, also known as Abdul Alkalimat, and not active as an organization.

You are reminded that the FBI has no interest in bona fide activities of educational institutions. Therefore, your investigation of the FFM should be handled discreetly since the FFM appears at this time to be a campus-oriented organization.

NOTE: YOBV, formerly Student Organization for Black Unity, was founded in 1969 by known black militants to organize students toward Pan-Africanism. It has published periodically "The African World." Its existence has been questionable for some time and investigation is needed to determine its status especially in view of information its leaders were instrumental in organizing the FFM. Based on this information and the fact many YOBV affiliates traveled to Cuba, preliminary inquiry should be initiated regarding the FFM.

ENCLOSURE

FEBRUARY FIRST MOVEMENT

In September, 1972, the ALSC leader at the time indicated that black people of the world must destroy capitalism by any means necessary including such action as that by Arab terrorists against Israeli athletes at the Olympic Games in September, 1972. In November, 1973, the current leader said Cuba is in the vanguard of the fight against imperialism and that the ALSC had a direct obligation and responsibility to maintain the development of socialism in Cuba.

All confidential sources referred to in this memorandum, except as noted, have furnished reliable information in the past.

A confidential source advised that a new organization called the February First Movement (FFM) would hold its initial meeting in Washington, D.C. (WDC), on 2/1/75. Source later reported that at this meeting Donald Isaac read a background statement re the FFM. A well known singer-pianist then performed. FEBRUARY FIRST MOVEMENT

FFM literature describes FFM's areas of work as falling into the following categories: (1) Student Struggles, (2) Community Struggles, (3) Workers Struggles, (4) Womens Struggles, (5) Struggles of Oppressed Nationalities in the United States, and (6) Support for National Liberation Movements in Africa, Asia, the Middle East, and Latin America.

On January 29, 1975 a second confidential source advised the FFM National Office address in Washington, D.C. (WDC) is Post Office Box 22007, Washington, D.C. 20002. The actual location of this office is 473 Florida Avenue, N.W., Washington, D.C., the facility formerly utilized by the Howard University group known as the Youth Organization for Black Unity (YOBUS).

A third confidential source, who is in a position to know, has advised that the above Post Office Box was rented by Roger Carlton Newell, for use by the FFM.

FFM literature dated March, 1975 furnished by a fourth confidential source, described the FFM as having three chapters in Washington, D.C. (WDC), one being at Federal City College. The first source described a five person FFM chapter at George Washington University as non-functional. Both sources have reported FFM activity in the Howard University (HU) area by persons formerly active with the YOBUS, a legitimate Howard University student organization.

FFM literature furnished by the first source in March, 1975, described "The African World" newspaper as a "National Black Newspaper which contains news and analysis about black and oppressed people in the U.S.A. and across the world." This "non-profit news service" is published by the February First Movement, an

anti-Imperialist black student organization." This source stated that this newspaper is published at 305 G. Street, N.W., Washington, D.C. (WDC), the printing press that also prints the National Newsletter of the ALSC.

"The African World" lists its address in Washington, D.C. (WDC) as P.O. Box 2413, Washington, D.C. The third source has advised this box was rented by Roger Carlton Newell; for use by YOBUE, a student organization.

In April, 1975, the first source reported that although many former YOBUE members are currently associated with the FFM, the formation of this latter group was much greater than a single changing of names. YOBUE's aim was to organize a political party and attempted to attract a following from both students and community people. Currently the FFM has no announced ongoing programs, as it is very young and developing. It encourages its members to attend functions of the ALSC and other anti-imperialist groups.

Source one continued that during the summer of 1974, in an effort to organize a successful, meaningful anti-racist/anti-imperialist organization for college students, several individuals from Washington, D.C. (WDC) and other cities travelled to Cuba to personally view how similar groups in that country operate. While there they observed that organizations composed of only students, appeared to function better. Source's opinion, formulated by personal conversation with several FFM leaders, was that no known foreign influence of any kind exists regarding the FFM or its leaders. Much to the contrary is true, in that the group is operated by its leaders, who use their own administrative ideas, as well as those patterned selectively from other above mentioned groups.

DATE: 3/17/75

FROM : SAC, PHILADELPHIA (157-8957)

SUBJECT: MOVE
EM

This investigation is based on information MOVE may be in violation of Title 18, U.S. Code, Section 2383 (Rebellion or Insurrection), Section 2384 (Seditious Conspiracy), and Section 241 (Conspiracy to Deprive a Citizen of Rights or Privileges secured by the Constitution or the Laws of the United States).

Sources, who have furnished reliable information in the past and the Philadelphia Police Department (PHPD), described MOVE as a bi-racial organization whose aim is to MOVE the establishment to their way of thinking which is that no one should own too much. They do this by demonstrating against and attempting to interrupt well known personalities when they are speaking by shouting obscenities to attract attention. They have shouted these obscenities before the Philadelphia Board of Education, colleges, Governors of the 13 original states, and attempted to do so before President FORD. PHPD advised they feel the greatest danger in these outbursts is the possibility of MOVE members being attacked by someone who considers their profanity repugnant. This could lead to a riot when other MOVE members attempt to help their friends. MOVE is Philadelphia based and the PHPD advised that they know of no MOVE organization outside of Philadelphia.

Sources who furnished the above information are PH 307-E, PH 1068-E, and PH 4384-PEI. Inspector GEORGE FENCL, Civil Affairs Unit, PHPD, has been at most MOVE demonstrations. Inspector FENCL advised he considers MOVE

to be a dangerous group in that they are so obnoxious every time there is a demonstration or any MOVE members are present, the PHPD is always afraid of trouble with the MOVE members, hoping they will "not throw the first punch."

Inspector FENCL advised typical of the attitude of MOVE occurred during the Bicentennial Celebration of the First Continental Congress in Philadelphia at Carpenter Hall. There were 12 governors and a lieutenant governor of the 13 original states. When the governor of New Hampshire began speaking they were spread throughout the audience and all screamed obscenities at the governor from New Hampshire. In courtrooms when on trial, they screamed these obscenities at judges and they feel they are being picked on by the judges because the judges hold them in contempt.

INFORMANTS

PH 1068-E and PH 4384-PEI advised there are 30-35 members of MOVE. They follow the writings of "JOHN AFRICA" and state that Philadelphia is the homebase of MOVE. They say MOVE is located in other areas but there is no indication this is so.

INFORMANT

PH 1068-E on 12/20/74, advised he had been in contact with members of MOVE organizations and found it practically impossible to reason with them.

INFORMANT

PH 1068-E described MOVE as a "quasi-militant group of rather articulate individuals" who seek to make "revolution" through social adjudication and disruption, through challenging elected officials, and otherwise harassment of law officers and members of the judicial system.

Everyone who has had anything to do with MOVE has commented on their filthy clothes and the fact they feel it is wrong to take a bath.

INFORMANT

PH 4384-PEI advised most MOVE members are extremely dedicated. They consider a sign of dedication how many times one has been arrested, creating a disturbance, and how many wounds a member has received from the clubs of policemen.

PH 157-8957

Informant

On 1/30/75 PH 4384-PEI advised MOVE is an organization that advocates nothing less than the total overthrow of the existing government. He stated that the non-violent noise they have been making is merely an attention getter so they will become known and gain adherents to their cause.

For the information of the Bureau, Philadelphia has one informant, a member of MOVE, and the second informant who is in contact with MOVE members. It is felt this organization should be reviewed and at least the leaders of the organization identified.

Members of MOVE reside at 309 North 33rd Street, Philadelphia, a dilapidated house. PH 4384-PEI advised most MOVE members work at a car wash in front of the house and through this car wash, make some money.

Members of MOVE have been interviewed by agents handling extremist matters and agents handling civil rights cases when they came into the Philadelphia Office to complain that their civil rights were violated when they were arrested by the police. Philadelphia will continue this type of interview so that consideration can be given toward obtaining more informants in MOVE.

UACB, Philadelphia will continue its investigation of MOVE and members of MOVE. LHM concerning MOVE will be submitted in the near future.

By airtel 3/5/75, under the caption "PH 4384-PEI," you were instructed to furnish details regarding captioned organization, along with your recommendation for additional investigative activity contemplated. To date, communication concerning instant matter has not been received, and without same an evaluation cannot be made relative to justification for investigation of individuals connected with that organization. You should promptly submit the requested communication.

FBIHQ is in receipt of five letters advising that investigation of the following individuals is being instituted:

Merle C. Austin (PH 157-9193)
Consuella Dotson (PH 157-9197)
James Conrad Hampton (PH 157-9198)
Louis James (PH 157-9194)
Suzanne Leon (PH 157-9192)

Justification for investigation of these individuals has been shown to be based upon their involvement in Move. Contrary to understanding at FBIHQ as shown in above airtel, that Move advocates total overthrow of the existing government, from incoming letters on above individuals, basis for investigation of Move or its members is not displayed.

Until a determination relative to investigation of Move is made at FBIHQ, conduct no additional investigation of above individuals or any other individuals, investigation of whom is based solely upon Move activity. You will be furnished additional guidance regarding these investigations.

For your future guidance, the letters on each of the above individuals were submitted under the alias of each, with the true names shown as aliases. Future correspondence should be in proper form under true names of subjects.

NOTE:

All five of the investigations of above individuals were predicated upon involvement in Move by the individuals. Move is described in the letter as a "biracial organization whose aim is to MOVE the establishment to their way of thinking that no one should own too much. They do this by demonstrating against and attempting to interrupt well-known personalities when they are speaking by shouting obscenities to attract attention." The predications go on to name instances where Move has shouted obscenities and it ends up with the belief that attacks on Move members by persons who consider their profanity repugnant, could lead to riots.

EXTREMIST MATTER

RePHlet 3/17/75 and Buairtel 3/24/75.

Review of information set forth in referenced letter relative to aims and objectives of MOVE has been made and FBIHQ believes justification for investigation of MOVE at this time is not present. The nature of the activities of the organization, while being disruptive and antiestablishment, have not been shown at this point to present a clear, present danger to national security. The actions present themselves as local law enforcement problems of interest to the FBI primarily to the extent they create civil unrest.

Discontinue investigation of MOVE, and unless they have involvement in other areas of extremist matters warranting investigation, discontinue investigation of MOVE members. Investigation of MOVE is subject to reopening in the event new information comes to your attention suggesting a basis for the investigation in which event FBIHQ should be notified. Prior to closing, submit LHM with results of investigation to date.

Review of information set forth in referenced letter relative to aims and objectives of MOVE has been made and FBIHQ believes that before a final judgment can be made relative to presence of statutory basis for investigation of MOVE, all information developed in your investigation concerning MOVE should be presented to FBIHQ for consideration. Prepare and submit a comprehensive LHM or report if over five pages, with the information. Include in cover pages of your communication following specifics relative to information furnished by MOVE member informant, PH 4384-PEI. Is his pronouncement that "MOVE" is an organization that advocates nothing less than the total overthrow of the existing Government," based upon statements or writings by MOVE members, or is it his evaluation of the organization's dedication and goals? In event the latter instance is the case, what is your assessment of informant's capability to make such an evaluation and what are your observations relative to proclivity of MOVE to strive toward overthrow of our Government?

Investigation of individuals because of their affiliation or membership in MOVE, who have not been shown to have a current propensity for violence or other extremist involvement which would warrant investigation, should be closed.

From discussion with members of the Philadelphia
PD who have covered MOVE demonstrations and from personal
observation, an agent was present at Carpenters Hall, it
is felt that MOVE as an organization should be investi-
gated. It is felt this should be done especially so
because of the upcoming Bicentennial in Philadelphia in
1976. MOVE as such will not attempt to overthrow the
government since they are so small, 30-35 members; however,
they can be extremely noisy and obnoxious, and it is ex-
pected they will continue their efforts to embarrass public
officials as they did at Carpenters Hall and as they have
done at meetings of the Philadelphia School Board.

When President FORD spoke at the Bicentennial Celebration, members of MOVE attempted to get in the area where they could shout obscenities at the President. No one without a ticket was allowed within one block of where the President spoke. It is felt Philadelphia should obtain and continue obtaining information in investigating MOVE as an organization. It is felt that background information only should be obtained on members of MOVE. It is not necessary they be investigated since they do not have any system of leadership.

Philadelphia will continue investigating MOVE and will obtain background on MOVE members UACB.

MOVE

This investigation is based on information MOVE may be in violation of Title 18, U.S. Code, Section 2383 (Rebellion or Insurrection), Section 2384 (Seditious Conspiracy), and Section 2385 (Conspiracy to Deprive a Citizen of Rights or Privileges Secured by the Constitution or the Laws of the United States).

A. BACKGROUND

A source described MOVE as a "quasi-militant group of rather articulate individuals". He stated the organization consists of 30 to 35 persons who seek to make "revolution" through social agitation and disruption, through the challenging of elected officials, and otherwise harassment of law officers and members of the judicial system.

According to the source, MOVE surfaced in the late fall or early winter of 1973 and stated they were following the writings of "JOHN AFRICA", the founder of MOVE. MOVE claims that man's technology has "doomed" him and that they are therefore against machines, science, mechanization, etc.

FURNISHED RELIABLE INFORMATION
IN THE PAST EXCEPT WHERE
OTHERWISE NOTED.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

ENCLOSURE

MOVE

Their headquarters is at 309 North 33rd Street, Philadelphia, Pa. At this address, they run a car wash in the street and obtain most of their money from this car wash. This source advised that although JOHN AFRICA is referred to as the founder of MOVE, he does not know JOHN AFRICA and feels there is no such person.

In October 1974, Inspector GEORGE FENCL, Civil Affairs Unit, Philadelphia Police Department, advised JOHN VINCENT LEAPHART is identical with JOHN AFRICA who wrote the teachings of MOVE.

On April 11, 1975, a second source advised that JOHN AFRICA, the so-called leader behind MOVE, is identical with VINCENT LEAPHART. A photograph of LEAPHART was shown to this source, who identified this individual as JOHN AFRICA.

Writings of the MOVE organization are extremely obscene, hard to follow and very rambling. Although they do not attempt to incite anyone to starting a revolution, the language and attitude is such that it can turn a non-member against them, especially if the non-member has a temper or is violence prone. More concerning this will be stated in a later section of this memorandum. They are known throughout the City of Philadelphia and have received a great deal of publicity because of their imprisonment and attitudes in prison.

B. ARREST AND IMPRISONMENT

The following information was furnished by Inspector GEORGE FENCL, Civil Affairs Unit, Philadelphia Police Department:

MOVE

Inspector FENCL advised that many MOVE members have been arrested, but that very few have been convicted because most every trial involving a MOVE member has ended in a mistrial. However, judges have sentenced MOVE members to up to 120 days in prison for Contempt of Court.

An example of this and an example of the attitude of MOVE members occurred during the Bicentennial Celebration of the First Continental Congress in Philadelphia on September 5, 1974. There were Governors of 12 of the original 13 states and the Lieutenant Governor of the 13th representing their states at this celebration. Governor SHAPP of Pennsylvania was the Master of Ceremonies as Host Governor. Governor SHAPP spoke and then introduced the Governor of New Hampshire. MOVE members, who were spread throughout the audience, began shouting at the top of their lungs, using obscene language. They were taken from the celebration, arrested and later brought to trial. At their trial they cursed and swore at the judge, police officers and anyone who testified against them. The judge ruled the case a mistrial and sentenced all involved to three months for Contempt of Court.

According to Inspector FENCL, this is typical of what happens in court trials involving MOVE members. The biggest trouble at these trials occur when a person is upset at the antics of some of the MOVE members and attempts to hit them. While in jail, MOVE members have refused to leave jail when a release is issued because they want to stay with their friends. Inspector FENCL advised that jails have many problems with MOVE members because MOVE members do not bathe and at one time complained that they did not want anyone killing the bugs in their cell.

MOVE

C. POTENTIAL FOR VIOLENCE

Inspector FENCL stated that in and of themselves, MOVE members are not violent and would not attempt to cause problems except for their language and attempts to stop speakers at regular meetings. Inspector FENCL stated that the most important problem with MOVE members would occur at demonstrations such as that mentioned above when someone may get disgusted with the obscenities and actions of MOVE members. An individual might hit one of them and a riot could then start. MOVE members would then attempt to protect their own and everyone else would be against the MOVE member.

On January 30, 1975, the second source advised that MOVE is an organization that advocates nothing less than the total overthrow of the existing government. He stated the non-violent noise MOVE has been making is merely an attention getter so they will become known and gain adherence to their cause. This source was recontacted and stated he came to this opinion from writings and statements of MOVE members. The writings and statements contain nothing which would lead one to believe there is a plot to destroy the government. ~~Since MOVE advocates doing away with all scientific and other type companies, one could easily obtain the viewpoint of this source.~~ — ?

On April 23, 1975, the second source advised that in reaction to the beatings and other abuse that MOVE members have received, they, some MOVE members, formed a group known as the "Black Guard". The Black Guard has been formed among male members and kept secret from the female members of the organization for fear the female members become upset. According to source, DEL AFRICA, HAMP AFRICA and BEOWOLF AFRICA belong to this group. BEOWOLF AFRICA traveled to Boston, Mass., and called the office of the Sheriff in Philadelphia where he made a threatening call telling the Sheriff to stop mistreating MOVE members.

MOVE

On April 23, 1975, Chief Inspector JOSEPH KOMARNICKI, Philadelphia Sheriff's Office, City Hall, Philadelphia, Pa., advised he is not cognizant of any specific threats received by his office and he has never heard of the Black Guard. He stated that most members of his department have received threats from MOVE at one time or another, during their dealings with them, but they, the Sheriff's Office, treated the threats as common run-of-the-mill threats and thought no more of it. He advised MOVE court room hearings are characterized by obscenity and defecation in the court room.

Inspector FENCL advised all members of MOVE, both black and white, use the surname AFRICA.

The entire second and third sentences of paragraph 4, page 2.

The last sentence of paragraph 2, page 4.

Delete from your copies.

Careful review of the information contained in referenced LHM by FBIHQ indicates that there is no basis for a continued investigation of MOVE or of its members because of their association with MOVE. It is recognized that the behavior of MOVE members is very undesirable and disruptive of public gatherings and trials. Their disruptive acts, however, are violations of state and local laws and apparently are being dealt with on that level by the proper authorities. Their organization is small in number and there is no indication that it is expanding beyond Philadelphia.

In view of above, Philadelphia should discontinue its investigation of this organization in the absence of indications that its members are involved in activities related to violations of Federal statutes.

Although no investigation is to be conducted of MOVE and no informants targeted against this organization, Philadelphia should submit in appropriate form for dissemination any situations involving MOVE coming to your attention that come within our responsibilities concerning Civil Unrest. This would include proposed or actual demonstrations or confrontations that might lead to or do involve violence. Any such items should carry the Civil Unrest character.

NOTE:

MOVE is an organization of approximately 30-35 members located in Philadelphia and in existence since early 1973. Its members engage in shouting obscenities in public meetings thereby disrupting prominent, often elected, speakers and leading to arrests of MOVE members. In court proceedings MOVE members behave in the same manner resulting in declaration of mistrials and subjects' being sentenced for contempt of court. MOVE members refuse to bathe and are totally obscene in their personal behavior. There is no indication of a statutory basis for our continued investigation of this organization and Philadelphia is being instructed to discontinue.

Memorandum

TO : DIRECTOR, FBI

DATE: 3/17/75

FROM : SAC, PHILADELPHIA (157-8957)

SUBJECT: MOVE
EM

This investigation is based on information MOVE may be in violation of Title 18, U.S. Code, Section 2383 (Rebellion or Insurrection), Section 2384 (Seditious Conspiracy), and Section 241 (Conspiracy to Deprive a Citizen of Rights or Privileges secured by the Constitution or the Laws of the United States).

Sources, who have furnished reliable information in the past and the Philadelphia Police Department (PHPD), described MOVE as a bi-racial organization whose aim is to MOVE the establishment to their way of thinking which is that no one should own too much. They do this by demonstrating against and attempting to interrupt well known personalities when they are speaking by shouting obscenities to attract attention. They have shouted these obscenities before the Philadelphia Board of Education, colleges, Governors of the 13 original states, and attempted to do so before President FORD. PHPD advised they feel the greatest danger in these outbursts is the possibility of MOVE members being attacked by someone who considers their profanity repugnant. This could lead to a riot when other MOVE members attempt to help their friends. MOVE is Philadelphia based and the PHPD advised that they know of no MOVE organization outside of Philadelphia.

Sources who furnished the above information are

to be a dangerous group in that they are so obnoxious every time there is a demonstration or any MOVE members are present, the PHPD is always afraid of trouble with the MOVE members, hoping they will "not throw the first punch."

Inspector FENCL advised typical of the attitude of MOVE occurred during the Bicentennial Celebration of the First Continental Congress in Philadelphia at Carpenter Hall. There were 12 governors and a lieutenant governor of the 13 original states. When the governor of New Hampshire began speaking they were spread throughout the audience and all screamed obscenities at the governor from New Hampshire. In courtrooms when on trial, they screamed these obscenities at judges and they feel they are being picked on by the judges because the judges hold them in contempt.

INFORMANTS advised there are 30-35 members of MOVE. They follow the writings of "JOHN AFRICA" and state that Philadelphia is the homebase of MOVE. They say MOVE is located in other areas but there is no indication this is so.

INFORMANT on 12/20/74, advised he had been in contact with members of MOVE organizations and found it practically impossible to reason with them.

INFORMANT described MOVE as a "quasi-militant group of rather articulate individuals" who seek to make "revolution" through social adjudication and disruption, through challenging elected officials, and otherwise harassment of law officers and members of the judicial system.

Everyone who has had anything to do with MOVE has commented on their filthy clothes and the fact they feel it is wrong to take a bath.

INFORMANT advised most MOVE members are extremely dedicated. They consider a sign of dedication how many times one has been arrested, creating a disturbance, and how many wounds a member has received from the clubs of policemen.

PH 157-8957

On 1/30/75 *informant* advised MOVE is an organization that advocates nothing less than the total overthrow of the existing government. He stated that the non-violent noise they have been making is merely an attention getter so they will become known and gain adherents to their cause.

For the information of the Bureau, Philadelphia has one informant, a member of MOVE, and the second informant who is in contact with MOVE members. It is felt this organization should be reviewed and at least the leaders of the organization identified.

Members of MOVE reside at 309 North 33rd Street, Philadelphia, a dilapidated house. PH 4384-PEI advised most MOVE members work at a car wash in front of the house and through this car wash, make some money.

Members of MOVE have been interviewed by agents handling extremist matters and agents handling civil rights cases when they came into the Philadelphia Office to complain that their civil rights were violated when they were arrested by the police. Philadelphia will continue this type of interview so that consideration can be given toward obtaining more informants in MOVE.

UACB, Philadelphia will continue its investigation of MOVE and members of MOVE. LHM concerning MOVE will be submitted in the near future.

Re: Move

Extra copies of instant communication are being furnished to you for inclusion in your files on the above persons.

For your future guidance, the letters on each of the above individuals were submitted under the alias of each, with the true names shown as aliases. Future correspondence should be in proper form under true names of subjects.

NOTE:

All five of the investigations of above individuals were predicated upon involvement in Move by the individuals. Move is described in the letter as a "biracial organization whose aim is to MOVE the establishment to their way of thinking that no one should own too much. They do this by demonstrating against and attempting to interrupt well-known personalities when they are speaking by shouting obscenities to attract attention." The predications go on to name instances where Move has shouted obscenities and it ends up with the belief that attacks on Move members by persons who consider their profanity repugnant, could lead to riots.

MOVE

EXTREMIST MATTER

RePHlet 3/17/75 and Buairtel 3/24/75.

Review of information set forth in referenced letter relative to aims and objectives of MOVE has been made and DOJ believes justification for investigation of MOVE at this time is not present. The nature of the activities of the organization, while being disruptive and anti-establishment, have not been shown at this point to present a clear, present danger to national security. The actions present themselves as local law enforcement problems of interest to the FBI primarily to the extent they create civil unrest.

Discontinue investigation of MOVE, and unless they have involvement in other areas of extremist matters warranting investigation. Discontinue investigation of MOVE members. Investigation of MOVE is subject to reopening in the event new information comes to your attention suggesting a basis for the investigation in which event DOJ should be notified. Prior to closing, submit LHM with results of investigation to date.

One source says MOVE is an "organization that advocates nothing less than total overthrow of the existing government and that the non-violent noise they have been making is merely an attention getter so they will become known and gain adherents to their cause." Such advocacy of overthrow of the government and revolution have not shown to go much beyond rhetoric, and it is not believed the actions of the group warrant investigation or that proper statutory basis for investigation is present.

Review of information set forth in referenced letter relative to aims and objectives of MOVE has been made and FBIHQ believes that before a final judgment can be made relative to presence of statutory basis for investigation of MOVE, all information developed in your investigation concerning MOVE should be presented to FBIHQ for consideration. Prepare and submit a comprehensive LHM or report if over five pages, with the information. Include in cover pages of your communication following specifics relative to information furnished by MOVE member informant, INFORMANT Is his pronouncement that "MOVE" is an organization that advocates nothing less than the total overthrow of the existing Government," based upon statements or writings by MOVE members, or is it his evaluation of the organization's dedication and goals? In event the latter instance is the case, what is your assessment of informant's capability to make such an evaluation and what are your observations relative to proclivity of MOVE to strive toward overthrow of our Government?

Investigation of individuals because of their affiliation or membership in MOVE, who have not been shown to have a current propensity for violence or other extremist involvement which would warrant investigation, should be closed.

Relet was submitted presumably in order that FBIHQ could make an assessment of MOVE and in order that investigation of MOVE could proceed on a UACB basis. It has subsequently been determined that investigation of MOVE and its

For future guidance, since investigation of MOVE was initiated in March, 1974, as indicated in above-mentioned memorandum, basis for the investigation should have been set out not only in your file upon initiation of investigation but should have also been included in a communication to FBIHQ after the investigation had extended beyond the preliminary 90-day investigative stage. No such communication under the MOVE caption was submitted until prompted by Buairtel to your office 3/5/75 authorizing operation of *INFORMANT*.

Mentioned also in the inspection administrative memorandum on page 95 was the "Black Nationalist Criminal Fugitive Album, (PH file 157-5685)." From discussion with members of the Philadelphia
 PD who have covered MOVE demonstrations and from personal
 observation, an agent was present at Carpenters Hall; it
 is felt that MOVE as an organization should be investi-
 gated. It is felt this should be done especially so
 because of the upcoming Bicentennial in Philadelphia in
 1976. MOVE as such will not attempt to overthrow the
 government since they are so small, 30-35 members; however,
 they can be extremely noisy and obnoxious, and it is ex-
 pected they will continue their efforts to embarrass public
 officials as they did at Carpenters Hall and as they have
 done at meetings of the Philadelphia School Board.

When President FORD spoke at the Bicentennial Celebration, members of MOVE attempted to get in the area where they could shout obscenities at the President. No one without a ticket was allowed within one block of where the President spoke. It is felt Philadelphia should obtain and continue obtaining information in investigating MOVE as an organization. It is felt that background information only should be obtained on members of MOVE. It is not necessary they be investigated since they do not have any system of leadership.

Philadelphia will continue investigating MOVE and will obtain background on MOVE members UACB.

MOVE

This investigation is based on information MOVE may be in violation of Title 18, U.S. Code, Section 2383 (Rebellion or Insurrection), Section 2384 (Seditious Conspiracy), and Section 241 (Conspiracy to Deprive a Citizen of Rights or Privileges Secured by the Constitution or the Laws of the United States).

A. BACKGROUND

A source described MOVE as a "quasi-militant group of rather articulate individuals". He stated the organization consists of 30 to 35 persons who seek to make "revolution" through social agitation and disruption, through the challenging of elected officials, and otherwise harassment of law officers and members of the judicial system.

According to the source, MOVE surfaced in the late fall or early winter of 1973 and stated they were following the writings of "JOHN AFRICA", the founder of MOVE. MOVE claims that man's technology has "doomed" him and that they are therefore against machines, science, mechanization, etc.

ENCLOSURE

5

MOVE

Their headquarters is at 309 North 33rd Street, Philadelphia, Pa. At this address, they run a car wash in the street and obtain most of their money from this car wash. This source advised that although JOHN AFRICA is referred to as the founder of MOVE, he does not know JOHN AFRICA and feels there is no such person.

In October 1974, Inspector GEORGE FENCL, Civil Affairs Unit, Philadelphia Police Department, advised JOHN VINCENT LEAPHART is identical with JOHN AFRICA who wrote the teachings of MOVE.

On April 11, 1975, a second source advised that JOHN AFRICA, the so-called leader behind MOVE, is identical with VINCENT LEAPHART. A photograph of LEAPHART was shown to this source, who identified this individual as JOHN AFRICA.

Writings of the MOVE organization are extremely obscene, hard to follow and very rambling. Although they do not attempt to incite anyone to starting a revolution, the language and attitude is such that it can turn a non-member against them, especially if the non-member has a temper or is violence prone. More concerning this will be stated in a later section of this memorandum. They are known throughout the City of Philadelphia and have received a great deal of publicity because of their imprisonment and attitudes in prison.

B. ARREST AND IMPRISONMENT

The following information was furnished by Inspector GEORGE FENCL, Civil Affairs Unit, Philadelphia Police Department:

MOVE

Inspector FENCL advised that many MOVE members have been arrested, but that very few have been convicted because most every trial involving a MOVE member has ended in a mistrial. However, judges have sentenced MOVE members to up to 120 days in prison for Contempt of Court.

An example of this and an example of the attitude of MOVE members occurred during the Bicentennial Celebration of the First Continental Congress in Philadelphia on September 5, 1974. There were Governors of 12 of the original 13 states and the Lieutenant Governor of the 13th representing their states at this celebration. Governor SHAPP of Pennsylvania was the Master of Ceremonies as Host Governor. Governor SHAPP spoke and then introduced the Governor of New Hampshire. MOVE members, who were spread throughout the audience, began shouting at the top of their lungs, using obscene language. They were taken from the celebration, arrested and later brought to trial. At their trial they cursed and swore at the judge, police officers and anyone who testified against them. The judge ruled the case a mistrial and sentenced all involved to three months for Contempt of Court.

According to Inspector FENCL, this is typical of what happens in court trials involving MOVE members. The biggest trouble at these trials occur when a person is upset at the antics of some of the MOVE members and attempts to hit them. While in jail, MOVE members have refused to leave jail when a release is issued because they want to stay with their friends. Inspector FENCL advised that jails have many problems with MOVE members because MOVE members do not bathe and at one time complained that they did not want anyone killing the bugs in their cell.

MOVE

C. POTENTIAL FOR VIOLENCE

Inspector FENCL stated that in and of themselves, MOVE members are not violent and would not attempt to cause problems except for their language and attempts to stop speakers at regular meetings. Inspector FENCL stated that the most important problem with MOVE members would occur at demonstrations such as that mentioned above when someone may get disgusted with the obscenities and actions of MOVE members. An individual might hit one of them and a riot could then start. MOVE members would then attempt to protect their own and everyone else would be against the MOVE member.

On January 30, 1975, the second source advised that MOVE is an organization that advocates nothing less than the total overthrow of the existing government. He stated the non-violent noise MOVE has been making is merely an attention getter so they will become known and gain adherence to their cause. This source was recontacted and stated he came to this opinion from writings and statements of MOVE members. The writings and statements contain nothing which would lead one to believe there is a plot to destroy the government. ~~Since MOVE advocates doing away with all scientific and other type companies, one could easily obtain the viewpoint of this source.~~

On April 23, 1975, the second source advised that in reaction to the beatings and other abuse that MOVE members have received, they, some MOVE members, formed a group known as the "Black Guard". The Black Guard has been formed among male members and kept secret from the female members of the organization for fear the female members become upset. According to source, DEL AFRICA, HAMP AFRICA and BEOWOLF AFRICA belong to this group. BEOWOLF AFRICA traveled to Boston, Mass., and called the office of the Sheriff in Philadelphia where he made a threatening call telling the Sheriff to stop mistreating MOVE members.

MOVE

On April 28, 1975, Chief Inspector JOSEPH KOMARNICI, Philadelphia Sheriff's Office, City Hall, Philadelphia, Pa., advised he is not cognizant of any specific threats received by his office and he has never heard of the Black Guard. He stated that most members of his department have received threats from MOVE at one time or another, during their dealings with them, but they, the Sheriff's Office, treated the threats as common run-of-the-mill threats and thought no more of it. He advised MOVE court room hearings are characterized by obscenity and defecation in the court room.

Inspector FENCL advised all members of MOVE, both black and white, use the surname AFRICA.

The following portions have been deleted from Bureau copies of referenced LHM inasmuch as these statements appear to be the opinion of the dictating Agent and not attributable to a source:

The entire second and third sentences of paragraph 4, page 2.

The last sentence of paragraph 2, page 4.

Delete from your copies.

Careful review of the information contained in referenced LHM by FBIHQ indicates that there is no basis for a continued investigation of MOVE or of its members because of their association with MOVE. It is recognized that the behavior of MOVE members is very undesirable and disruptive of public gatherings and trials. Their disruptive acts, however, are violations of state and local laws and apparently are being dealt with on that level by the proper authorities. Their organization is small in number and there is no indication that it is expanding beyond Philadelphia.

In view of above, Philadelphia should discontinue its investigation of this organization in the absence of indications that its members are involved in activities related to violations of Federal statutes.

Re: MOVE
157-33717

Although no investigation is to be conducted of MOVE and no informants targeted against this organization, Philadelphia should submit in appropriate form for dissemination any situations involving MOVE coming to your attention that come within our responsibilities concerning Civil Unrest. This would include proposed or actual demonstrations or confrontations that might lead to or do involve violence. Any such items should carry the Civil Unrest character.

NOTE:

MOVE is an organization of approximately 30-35 members located in Philadelphia and in existence since early 1973. Its members engage in shouting obscenities in public meetings thereby disrupting prominent, often elected, speakers and leading to arrests of MOVE members. In court proceedings MOVE members behave in the same manner resulting in declaration of mistrials and subjects' being sentenced for contempt of court. MOVE members refuse to bathe and are totally obscene in their personal behavior. There is no indication of a statutory basis for our continued investigation of this organization and Philadelphia is being instructed to discontinue.

Re: International Committee Against Racism (INCAR)
100-462068

NOTE:

Informants including INFORMANTS, all PLP sources, have reported on PLP involvement in INCAR activities in each of their respective divisions. While the degree of involvement varies, it appears that the PLP has been the dominant force in organizing activities of INCAR in each field division. It is noted that many individuals listed as INCAR leaders are or have been PLP members. Boston, in 4/75, advised that INCAR appears to be a front group of the PLP or at least significantly dominated by PLP. Recent INCAR activity appears to be centered in Boston, where it is involved in the alleged racism problems in the city schools. Numerous references to INCAR are found in issues of the PLP weekly newspaper, "Challenge." While the above offices have reported INCAR activity, a review of the file reveals no coordinated investigation has been conducted to determine overall extent of PLP involvement. Letter sent to all offices having PLP activity. The PLP is a Marxist-Leninist revolutionary organization headquartered in New York City.

For information of receiving offices, a preliminary investigation of INCAR, often referred to as Committee Against Racism (CAR), has been initiated to determine extent of Progressive Labor Party (PLP) domination and to determine if INCAR is, in fact, a front group of PLP.

The stated objective of INCAR is to combat racism. This, of course, is a legitimate goal and does not constitute the basis for our investigation. It must be understood that this investigation is directed solely towards establishing the extent of PLP involvement in INCAR.

Detroit is designated office of origin since the National Headquarters of INCAR is in Highland Park, Michigan. It is noted that Kathi Whiteside, listed in an INCAR publication, as Administrative Director of INCAR, is a PLP member. All offices with INCAR activity expedite investigation of this group bearing in mind, as a preliminary inquiry, investigation is confined to established sources. Submit results of your investigation along with recommendations for further action within 90 days. 6 JUL 18 1975
Detroit, as office of origin, will coordinate investigation. Utilize character as above.

Letter to SAC, Detroit
Re: International Committee Against Racism (INCAR)
100-462068

NOTE:

Informants including INFORMANTS, all PLP sources, have reported on PLP involvement in INCAR activities in each of their respective divisions. While the degree of involvement varies, it appears that the PLP has been the dominant force in organizing activities of INCAR in each field division. It is noted that many individuals listed as INCAR leaders are or have been PLP members. Boston, in 4/75, advised that INCAR appears to be a front group of the PLP or at least significantly dominated by PLP. Recent INCAR activity appears to be centered in Boston, where it is involved in the alleged racism problems in the city schools. Numerous references to INCAR are found in issues of the PLP weekly newspaper, "Challenge." While the above offices have reported INCAR activity, a review of the file reveals no coordinated investigation has been conducted to determine overall extent of PLP involvement. Letter sent to all offices having PLP activity. The PLP is a Marxist-Leninist revolutionary organization headquartered in New York City.

PROGRESSIVE LABOR PARTY

The Progressive Labor Party (PLP), which was founded in 1965, adopted a constitution which "resolved to build a revolutionary movement" and "build a socialist USA with all power in the hands of the working people." PLP followed the Chinese communist line for several years but became critical of Chinese leaders for establishing a dialogue with the U.S. following President Nixon's visit to China in 1972. Thereafter, PLP declared itself to be an independent Marxist-Leninist organization aimed at setting up a dictatorship of the working class. According to Milton Rosen, National Chairman, the PLP advocates violent overthrow of the Government, but has set no timetable for its overthrow. The PLP, which is headquartered in New York City, has chapters in more than 25 cities in the U.S., and has, in the past year, initiated efforts to make PLP "an international party with the aim of rebuilding a new revolutionary communist movement."

In 1972, the PLP organized the Workers Action Movement (WAM) as a front group in order to build a base in the trade union movement and to attract workers into PLP.

FORMERLY KNOWN AS STUDENTS FOR A
DEMOCRATIC SOCIETY

Students for a Democratic Society (SDS) came into existence in June, 1962, and for the remainder of that decade functioned as the leading New Left campus-based student organization in the U.S. From an initial posture of "participatory democracy," SDS moved toward Marxist-Leninist ideological predomination with debate centering on how best to create a revolutionary youth movement. During 1968-1969, internal factionalism developed within SDS resulting in a split in June, 1969, into three organizations: Weatherman; Worker Student Alliance (WSA); and Revolutionary Youth Movement (RYM). Weatherman and RYM are no longer affiliated with SDS, however, WSA continues to use the name SDS.

At the 1970 SDS/WSA National Convention, a confrontation occurred between Progressive Labor Party (PLP) (a Marxist-Leninist organization advocating violent overthrow of the Government) oriented leadership and various caucuses opposed to PLP domination. The resulting struggle left the PLP-oriented leadership in complete control of SDS/WSA, which was headquartered in Cambridge, Massachusetts.

PLP control of SDS/WSA continued until February, 1974, when the Boston chapter of PLP split from PLP National Headquarters and formed Party for Workers Power (PWP) (a "revolutionary communist" organization advocating the violent overthrow of the government by the workers). SDS/WSA is now fragmented into two groups, one which supports PWP policy headquartered in Cambridge, Massachusetts, and the much larger group which supports PLP policy headquartered in New York City.

Dear friend:

CAR P.O. Box 836
Roxbury, Massachusetts 02120

The Committee Against Racism (CAR) is organizing Boston Freedom Summer '75, a counteroffensive against the racist forces in Boston, and we need your help. CAR is an international, multiracial organization actively fighting racism in education and other important areas of life. We believe that racism hurts us all--black, white, latin, Asian and native American--because it prevents the unity we all need to work for social change.

Boston has become the national center of a new wave of racism that is sweeping the country. If the racist movement in Boston, led by powerful and influential politicians, goes unchallenged, it can move the entire country in a fascist-like direction.

This is why CAR is organizing hundreds of volunteers from all over the country for a summer of intensive anti-racist activity in Boston. These volunteers will work with a broad range of local groups, canvass door-to-door in the city's neighborhoods, distribute leaflets, hold rallies and demonstrations. The goal is to undermine the political base of the racists and create a vigorous anti-racist, multi-racial movement which will fight for improved education for all school children.

We in Boston CAR, and the summer volunteers, need your help NOW. You and/or your organization can:

- Provide housing for one or more volunteers from out of town for all or part of the summer.
- Sponsor an anti-racist volunteer for the summer by raising \$200 or more.
- Contribute funds for literature, office expenses, mailing costs, etc.
- Invite a speaker from CAR to address your organization, class, and/or group of friends and neighbors in your home about the Summer Project.
- Participate yourself by helping us organize for the Project, by suggesting groups we can contact, and by introducing your friends to CAR.
- Officially endorse the Boston Freedom Summer '75.

Finally, YOU ARE INVITED to the CAR East Coast Organizing Conference for the Summer Project, in Boston, Saturday afternoon, April 12, exact time and place to be announced.

Sincerely,
Boston Committee Against Racism

ROSEN stated that the PLP's Boston, Massachusetts, activities were to be aimed at breaking the fascist organization which has emerged around the School Busing program. He stated that workers and minorities must "smash" this fascist outburst before it spreads and that the PLP has decided to converge on Boston to show some form of muscle in order that such fascist tendencies should be eliminated from society. He urged his audience to follow PLP leadership in order to wage an armed struggle to defeat capitalism.

BOSTON '75:
A Call to Action—The International
Committee Against Racism

The Steering Committee of the International Committee Against Racism (CAR) calls on students and other interested people to join our Freedom Summer Anti-Racist Action Project. Its purpose is to give a national/international focus to the anti-racist struggles going on in Boston. Summer volunteers will work under the leadership of Boston CAR. Together, they will prepare the way for a strong people's movement which will unite blacks, whites, and other minorities to fight for quality, desegregated education and to fight against the racism being used to wreck the bussing program.

This struggle will have a programmatic focus. Our aim is to select seriously committed people, students and others, but especially students, who will work on commuter campuses. Student volunteers must register at these schools in order to be effective. Some people may get jobs. A few may be assigned to community organizations. Other will talk to workers at plant gates and in union halls. The main focus will be on working with Boston students, parents, and teachers especially those from ethnic communities like South Boston and Roxbury.

A CAR sub-committee (Boston '75) will coordinate all activities. Two one-week anti-racist schools will be opened June and July with weekly workshops to prepare our volunteers for the correct ways of interacting with the Boston community. The key strategy is alliances with existing, rank-and-file forces already mobilized against racist attacks. The result will be solid, citywide CAR chapters and other rank-and-file anti-racist groups, tremendous experiences for our volunteers, and CAR itself will grow. Only in such a united, rank-and-file, multiracial, mass movement can we defeat racism—in Boston and everywhere.

WHY IS BOSTON FREEDOM SUMMER '75 SO IMPORTANT?

Because the power structure has kept Boston in a turmoil. Anti-racist actions, are swept under the rug, while pro-racist activity resembling fascism, is given top billing. Boston is the international/national expression of racist ideas published by Jensen, Herrnstein, and Banfield to justify the failures of the System. Further Boston racists are totally organized by political forces more dangerous than those in the South. The school board, the President, other politicians, and even the U.S. Supreme Court abet the resistance.

Moreover, racism is preventing working and middle-class people from getting a decent school system to replace a poor one. Racism is keeping blacks, whites, and other people from fighting back against unemployment, the cutbacks which are ruining health, education, and welfare in the Boston area. Boston Freedom Summer '75 will help many white Bostonians especially to begin to understand that racism hurts them. That without multiracial unity, there is no decent life for anyone. CAR BELIEVES THAT WE CAN REACH THE SILENT MAJORITY OF WHITE ANTI-RACIST AND BRING THEM INTO OPEN STRUGGLE. By hindering the attempt to create even further racial turmoil around the 75-76 bussing program, we will greatly improve our chances of creating an international movement against racism.

MOST OF ALL, Boston is the test whether or not racist mob-violence, similar to FASCISM, combined with political racism can succeed in stopping the desegregation movement. CAR says with this summer project, "THE RACISTS ARE GONNA FLUNK THIS TEST!!!"

ROSEN stated that the PLP's Boston, Massachusetts, activities were to be aimed at breaking the fascist organization which has emerged around the School Busing program. He stated that workers and minorities must "smash" this fascist outburst before it spreads and that the PLP has decided to converge on Boston to show some form of muscle in order that such fascist tendencies should be eliminated from society. He urged his audience to follow PLP leadership in order to wage an armed struggle to defeat capitalism.

Re Baltimore letter dated 3/18/75.

The Committee Against Racism (CAR) in Baltimore has continued to support forums and educational concerns concerning racism within the existing educational systems.

It is noted that CAR in Baltimore has been supported by elements of the Progressive Labor Party, a Baltimore chapter, in their activities. As stated in referenced letter, this support by the Progressive Labor Party (PLP) is done because CAR and PLP are in sympathy regarding their views concerning racism.

Investigation to date does not develop any attempt by the PLP to recruit members from CAR or to influence the members towards PLP's philosophical viewpoints.

CAR has no recognized membership and participants in meetings vary.

Baltimore Division has placed this investigation in a closed status until it becomes evident at a later time that definite attempts have been made by subversive groups to corrupt CAR or its members.

CAR's activities continuing to center around social action against racism.

ReHOlet to Bu, 9/30/74.

Referenced Houston communication set forth the very limited CAR activities in Houston, Texas during the previous school year which for the most part was led by a PLP affiliated individual. This activity occurred for the most part on the campuses of Texas Southern University and the University of Houston, Houston, Texas. The organization was never known to have completely been internally structured in that no officers, membership rolls, dues/treasury or other similar items indicative of a structured organization.

In September, 1974, officials of Texas Southern University and the University of Houston indicated that the CAR was not a campus approved organization and to the best of their knowledge there was no current CAR activity known to them. These same individuals were again queried regarding the existence of CAR in November, 1974 and they again were unable to provide any information whatsoever regarding CAR; however, they could state this organization was not campus approved nor operating on their respective campuses.

Informants of the Houston Division have continually been canvassed regarding any possible CAR activity which may have come to their attention. No information whatsoever has been developed through the sources of the Houston Division to indicate that CAR is a functioning viable organization within the Houston, Texas area. Additionally, Houston sources have reported an absence of PLP activity in Houston, which was originally believed to be the sponsoring organization for previous CAR activity in Houston.

The Houston Division is, therefore, placing this case in a closed status, however, Houston will continue to remain alert for any information which could indicate a resurgence of any CAR activity, and upon receipt of any such positive information the Bureau will be notified and this case will be reopened for appropriate handling.

SUBJECT: COMMITTEE AGAINST RACISM,
WASHINGTON, D. C., CHAPTER
IS - CAR

Attached are five copies for the Bureau and one copy each for Baltimore and New Haven of an LHM, dated as above, captioned Committee Against Racism, Washington, D. C., Chapter.

A preliminary inquiry has been instituted based on information indicating the Committee Against Racism, Washington, D. C., Chapter (CAR, WDCC) could possibly be engaged in activities involving a violation of Title 18, U. S. Code, 2383 (Rebellion or Insurrection), 2384 (Seditious Conspiracy), 2385 (Advocating Overthrow of the Government), or Title 50, U. S. Code, 781-798 (Internal Security Act of 1950).

The Committee Against Racism (CAR) has been publicly described as a national multi-racial rank and file organization made up mainly of faculty, professionals, and undergraduate students. It was formed two years ago to work against the resurgence of racism in higher education and in society in general.

The April 17, 1974, issue of "The Hatchet," the student newspaper at the George Washington University, Washington, D. C., in an article headlined, "CAR Chapters Launch Spring Offensive Against Racism in America" outlined plans for a march and demonstration at the White House on Saturday, April 20 (1974), work shops at American University on Sunday, April 21, and lobbying in Congress on Monday, April 22.

Information copies being furnished to Baltimore as investigation has identified individuals affiliated with the CAR, WDCC residing within the territory covered by that office

and to New Haven, as the national headquarters of the CAR is located in the territory covered by that office.

Special Agents who observed the demonstration mentioned in attached LHM on 4/20/74, are SAs CLAUDE W. BOGLEY, EDWIN A. WAITE, JR., and EUGENE A. BRENNAN.

The pretext telephone call mentioned in attachment which occurred on 5/8/74, was made by SA BRENNAN.

Upon determination that a chapter of the CAR had emerged in the Washington, D. C. (WDC), area, INFORMANT was instructed to report any activity on the part of this organization. Subsequent to the April, 1974, action, source has stated CAR, WDCC has been virtually dormant. Source has reported the CAR does not appear to be a front group of any other organization; however, members of the Progressive Labor Party in the WDC area had attempted to make the CAR, WDCC a front group. Their efforts have been unsuccessful to date. Source is of the opinion that the CAR, WDCC was an Ad hoc group formed solely for the purpose of the April, 1974, demonstration.

Investigation to date has failed to substantiate the basis on which this preliminary inquiry was initiated, and further investigation to fully document the individuals affiliated with the CAR, WDCC is not being conducted.

COMMITTEE AGAINST RACISM
WASHINGTON, D. C., CHAPTER

Apparent Origin of the Committee Against Racism,
Washington, D. C., Chapter

On March 5, 1972, a group of approximately twenty-five persons met at the residence of Mike and Deirdre Golash, 1673 Columbia Road, N.W., An organizational designation could not be attached to the group; however, the persons present were primarily Washington, D. C., area college students who were members of the Progressive Labor Party and/or the Students for a Democratic Society. The meeting convened to discuss methods of exposing racism and racist practices in various area college campuses.

Suggested methods to accomplish these ends which were discussed at the meeting included (1) supporting striking campus workers, (2) exposing racist professors, and (3) banning books that advocate the belief that Blacks are inferior to Whites.

WF T-1, 3/5/72

The Progressive Labor Party (PLP), which was founded in 1965, adopted a constitution which "resolved to build a revolutionary movement" and "build a socialist USA with all power in the hands of the working people." PLP followed the Chinese communist line for several years but became critical of Chinese leaders for establishing a dialogue with the U.S. following President Nixon's visit to China in 1972. Thereafter, PLP declared itself to be an independent Marxist-Leninist organization aimed at setting up a dictatorship of the working class. According to Milton Rosen, National Chairman, the PLP advocates violent overthrow. The PLP, which is headquartered in New York City, has chapters in more than 25 cities in the U.S., and has, in the past year, initiated efforts to make PLP

"an international party with the aim of rebuilding a new revolutionary communist movement."

In 1972, the PLP organized the Workers Action Movement (WAM) as a front group in order to build a base in the trade union movement and to attract workers into PLP.

Worker Student Alliance (WSA), a faction of Students for a Democratic Society (SDS), was expelled from SDS in June, 1969, by the then dominant Weatherman faction but continued to use the name SDS and opened an office in Boston, Massachusetts. WSA aligned ideologically with the Progressive Labor Party (PLP) and in February, 1971, moved to Chicago, Illinois. Students for a Democratic Society/Worker Student Alliance currently shares office space with the PLP in Chicago.

Deirdre Katren Golash resides at 1673 Columbia Road, N.W. with her husband, Michael John Golash, Regional Washington, D. C., Director of the PLP. Deirdre Golash, a Graduate Assistant in the Philosophy Department at the University of Maryland, is a member of the Progressive Labor Party, the Students for a Democratic Society, and the Workers Action Movement. m. l.

D. C., area became involved in a new organization, the Committee Against Racism. This organization recently made an appearance in the Washington, D. C., area, having been founded in 1972 on the campus of the University of Connecticut, Storrs, Connecticut. A Progressive Labor Party member from Washington, D. C., was one of the persons who attended the founding convention of CAR in New York City.

WF T-3, 3020/74

In the organization known as the Committee Against Racism, Washington, D. C., Chapter, the Progressive Labor Party is working inside the Chapter, and various Progressive Labor Party members belong to most of the committees of the Chapter.

WF T-3, 3/20/74

Members of the Progressive Labor Party distributed leaflets on the campus of the University of Maryland, College Park, Maryland, on April 16, 1974. These leaflets announced that the Committee Against Racism had scheduled a demonstration in Washington, D. C., on April 20, 1974.

WF T-3, 5/15/74

Several members of the Progressive Labor Party participated in the April 20, 1974, demonstration sponsored by the CAR. These individuals took part in a march on Saturday, April 20, and attended workshops held on the following day on the campus of the American University.

The number of persons who participated in the April 20-24 march and demonstration sponsored by the CAR, surprised the leaders of the Progressive Labor Party in the Washington, D. C., area who reached the decision that an even greater emphasis should be placed on the demonstration of the CAR by the PLP.

and undergraduate students. It was formed in 1972 to work against the resurgence against racism in higher education and in society generally.

CAR chapters throughout the country set April 19-22, 1974 as the dates for a major national action/conference to combat racism in education, medical care, and medical research. The main focus of the action was to be a lobbying rally in Washington, D. C.; however, small, local activities in other locations around the U. S. were also planned. The following was a schedule: (1) a march and demonstration of the White House on Saturday, April 20, (2) workshops at American University on Sunday, April 21, (3) lobbying in Congress on Monday, April 22.

The April 20 demonstration planned opposition to the recent Committee on Economic Development (CED) report, which calls for doubling of tuition and reduction of financial aid by state institutions of higher education, "tracking" for Black and working class students, and virtual elimination of job security through tenure for new faculty. An additional focus of the CAR action would involve opposing the recent CED plans for turning state colleges into primarily centers for technical and occupational training. Also the demonstration would oppose continuing government funding of racist research projects.

On April 20, 1974, representatives of the Federal Bureau of Investigation observed a demonstration sponsored by the CAR, which began at approximately 1:00 p.m. in the vicinity of the entrance of the Federal City College building at 10th and E Streets, N.W. Approximately two hundred individuals took part in this demonstration which involved distribution of literature published by the Committee and speeches by three or four unidentified speakers utilizing a blowhorn at 10th and E Streets, N.W. The literature distributed on this occasion is attached to this report as an appendix. At approximately 2:30, the two hundred individuals began a march to Lafayette Park, 16th and Pennsylvania Avenue, N.W., directly across the street from the White House,

carrying various signs which included signs reading "Stop San Francisco Harrassment, No U. S. Apartheid," "Committee for Economic Development Equals Cutback in Education, Double Tuition," "Is Nixon's Problem Genetic," "YWLL Says Free Speech for Racists is Slavery for All."

Upon arrival at Lafayette Park, the speakers mounted a platform where microphones carried speeches to members of the crowd.

The Young Workers Liberation League (YWLL) is the youth arm of the Communist Party, USA. It was formed as a Marxist-Leninist youth group in February, 1970. It has established chapters throughout the United States for the purpose of educating youths in Marxist-Leninist doctrine and recruiting them into the CPUSA. National headquarters are in New York, New York. The CPUSA is a subversive organization which serves as an arm of the International Communist Movement dominated by the Soviet Union.

On April 21, 1974, at a meeting held on the campus of the American University, members of the Committee Against Racism agreed to stage a demonstration in or near the office of Representative PHILLIP BURTON, California, to protest the harrassment of Black people by the San Francisco Police Department. The demonstration was to take place at 10:00 a.m. on the following day. Representative BURTON represents the Fifth District of California, which covers a portion of the County of San Francisco.

WF T-4, 4/21/74

At approximately 9:30 a.m., April 22, 1974, a group of seventy individuals, believed to be members of the Committee Against Racism, appeared at the office of Representative PHILLIP BURTON, California. Mr. BURTON interviewed the group into his office, and the following discussion of the Congressman left at 12:45 p.m., many of the group returning to the campus of the American University.

Aims and Objectives of the CAR

CAR members nationwide are watching closely a case currently pending before the U. S. Supreme Court. The outcome of the case will have a profound effect in supporting or undermining one of CAR's basic aims: to oppose the reliance by society on culturally based aptitude and achievement tests in determining opportunity and reward in American life.

The case involves a lawsuit by a white student against the University of Washington Law School. The student, Marco DeFumis, has charged the law school with "reverse discrimination" because it denied him admission, but admitted a number of black and Spanish-speaking students who had lower scores than his on the Law School Aptitude Test.

CAR has emphasized strongly the fallacy of relying on such standardized tests as the only or main criterion for determining college, graduate school, or law school admission, job opportunities, and so on.

A number of leading scholars have also questioned the validity of such tests, pointing out that they are designed by members of the dominant (white) culture, and emphasize a particular class outlook. Therefore, people who come from that culture, and who have that class outlook, would normally make higher scores on them than would people who come from other cultural and class backgrounds.

Antioch Law School has submitted an "amicus curiae" (friend of the court) brief on behalf of the University of Washington Law School. A number of other organizations such as the United Auto Workers and United Mine Workers are also supporting the school.

The high court, eight of whose nine members are white, should hand down a decision in the case later this term.

CAR also opposes the use of public tax money to support the promotion of theories of racial, social, or class inferiority. Such theories have been cited in attempts to justify currently existing social conditions and the unequal distribution of wealth among people.

SAYS: STOP RACIST HARRASSMENT IN SAN FRANCISCO!

On Wednesday, 150 special San Francisco police, urged on by Mayor Alioto (a prime gubernatorial candidate), began a massive campaign of street searches and car stoppages of black male suspects in an "attempt" to apprehend a "Zebra" (black on white?) killer(s), accused of murdering 13 whites and wounding 7 others. The "Zebra" killings have been used by the press and the police to create a wave of racist hysteria in the city.

Hundreds of black men fitting the vague description of the suspect-- 20 - 30 years old, 5'9" - 6' tall--have been repeatedly stopped, some three or four times, for as long as 30 minutes.. This tactic is unprecedented in a murder investigation and amounts to nothing more than racist harassment of the black population of San Francisco and an attempt to promote fear and suspicion of blacks by whites.

At a time of serious inflation and economic recession when the standard of living of all working people, white and non-white, is drastically falling, the U.S. power structure has been using racism as its major tool to divide and conquer working people in this country.

If we are to achieve a better life for all of us, people of all races must unite and fight to defeat the deadly poison of racism.

JOIN US in OUR MARCH and YOUR STRUGGLE!

WE, THE UNDERSIGNED, THEREFORE PETITION THE CONGRESS OF THE UNITED STATES to oppose all attempts to implement these recommendations of the Committee for Economic Development. We ask, instead, that Congress support the following positive programs:

1. Free tuition financed by federal funds at all public colleges and universities.
2. Federally funded financial aid for students at all public colleges and universities adequate to support them in a decent manner, and based on economic need.
3. Federal funds for the hiring of more faculty and staff at all public colleges and universities in order to expand educational opportunities.
4. Federal funds for both open admissions programs and the supporting educational facilities required to make them constructive for the students.
5. Recognition of the right of all faculty to job security in the form of tenure after a reasonable trial period.
6. Expanded affirmative action designed to guarantee the hiring of faculty and staff and the admission of students from among Black, Latin, Asian, and Native Americans, and women.
7. Increased federal funding for public school systems of a magnitude sufficient to reverse the current disastrous downward trend in the quality of public education.
8. No federal funds for research aimed at "proving" the false thesis that one race or class of people is inferior to another.

PETITION TO CONGRESS

The Committee for Economic Development (CED), an influential organization that is composed primarily of big-business spokesmen but includes leading academic figures, has proposed a plan for higher education. This plan, if implemented, will lower the quantity and quality of education available to most people and further institutionalize racism in our colleges and universities. Indeed, signs of its implementation have already emerged. The CED recommendations and their effects may be summarized as follows.

First, to drastically increase the already prohibitively high tuitions at universities. Traditional programs of higher education leading to professional careers will thus become the exclusive province of the higher income strata of society. All universities will become as inaccessible as Harvard, for example, is today to those from low income backgrounds, who in our society consist disproportionately of Black, Latin, Asian, and Native Americans.

Second, to institute what the CED calls "new types of curricula" and a "wider diversity" of institutions supposedly designed to better serve "the nation's varied manpower requirements." To implement this, state and community colleges will in essence be converted into vocational training schools. The few opportunities for the traditional programs of higher education which remain for low income people will effectively be cut off. All that will remain will be an invidious educational system in which the wealthy are tracked into the professions, and low income white people as well as Black, Latin, Asian, and Native American people are systematically excluded from professional training. A society in which opportunities are restricted on racial and class lines will thus become even more firmly solidified.

Third, to impose 50% tenure quotas and periodic tenure review on faculty. This attack on tenure is masqueraded as an attempt to improve educational standards; it will actually destroy all gains made in faculty working conditions during the last twenty years. Job security will arbitrarily be denied to half the membership of the academic professions. This can only have a disastrous effect on teaching and research programs, and must discriminate against newly hired faculty many of whom belong to oppressed groups that have only recently opened a crack in the barriers to their participation in these professions.

Fourth, the recommendations in the CED report will, if implemented, make public policy of racist theories like those of CED Research Advisory Board member Edward Banfield (The Unheavenly City), Arthur Jensen (Educability and Group Differences) and Richard Herrnstein (IQ in the Meritocracy). Their false theses that Black and poor white people are genetically or culturally inferior serve to justify poverty and unequal opportunity on racial and class lines.

school education. Much of the research behind these theories is funded by the federal government. Such is the case with studies in psychosurgery to control violence in California and elsewhere. Recently, The National Institute of Health (NIH) awarded \$1.5 million to investigators at the University of Hawaii for a study on the genetic roots of cognitive differences among various national groups of Hawaii.

Clearly, racism, like oil profits, is thriving in 1974 to the danger of almost all Americans. But many argue that it is not so, that racism hurts only the non-white minorities, that it is a black, or Chicano, or native-American problem. CAR, on the other hand, argues that it is hurting poor and middle class whites also. The Federal-Mogul Corporation, a giant auto parts supplier, recently closed its Detroit plant, laying off all its workers and cancelling their pension rights, in order to open a new plant in Alabama. The company big heartedly offered its Detroit workers, who are mostly white and who had been earning \$5.00 an hour, the chance to relocate in Alabama at \$2.00 an hour. Here the racist wage differential has not only impoverished blacks. It has thrown white workers into the unemployment lines. The teaching profession fares no better. Educational

cutbacks, justified by the racist doctrines cited above, are throwing white teachers as well as black teachers out of work at a depression pace.

These are examples of how racism damages the economic well-being of all of us. But racism damages every one of us in still another important way. It disarms us politically. It divides black and white so that we are hampered in our fight to win a decent way of life. We fight at half strength. And why? Because the racist theorizing we have pointed to and which the government supports, the universities cloak with respectability, and the public schools spread far and wide, forces us to fight among ourselves. Meanwhile, our schools get worse, our health care deteriorates, and our jobs disappear. These attacks on our well-being, on our economic and cultural lives, can only be reversed if all of us—black, white, red, brown, and yellow—are politically united and in trim for a counter offensive.

These are the reasons why it is crucial for all of us to fight racism.

Join us in the Spring Action.

Call To Action

The National Committee Against Racism calls on everyone to join in a Spring action against racism in Washington, D.C. on April 20-22, 1974. As the first action during the Nixon administration, it kicks off an involved campaign to do away with racist practices and ideology. Our call is prompted by:

Accelerated cutbacks in HEALTH and EDUCATION;

Skyrocketing prices, high unemployment, and sharp reductions in welfare assistance;

Proliferating racist research and theories, most of it universities and much of it funded by the federal government and used to justify government policies to wipe out the meager minority gains of the recent past.

In response to these policies, which attack all work-people, professionals and nonprofessionals, Blacks, Chicanos, native Americans, Asian Americans, and ill people will rally and lobby for:

Increased and improved health services for minorities and all working people regardless of income;

High quality, non-racist, free education for all, funded by a substantial increase in the number of teachers, particularly minority teachers;

An end to government funding of racist research, such as projects aimed at "proving" the false thesis that one race or class is inferior to another, psychological experiments in sterilization of minority and low-income groups.

Why Rally? Lobby Against Racism?

As raging inflation cuts our dollars in half, we are asked to stand in unemployment lines. As our children learn in twelve years what we learned in six, we are told it is not the fault of a crumbling education system shot through with racist ideas and attitudes. We are told that it is the inability of black and low income white students to learn. As our standard of living plummets like a rock in water, we are asked to find substitutes for gas, bread, paper, wood, and meat. As oil company earnings and the profits of other monopoly corporations soar, we are forced to sacrifice our well-being on the job and at home, in health and in education.

As always, when the general welfare declines, an even sharper decline strikes Blacks, Chicanos, native Americans, Asian Americans, low income whites, and the foreign born. Many argue this is not so, that racism is on the wane. They quote alleged increases in job opportunities for minorities, they say things are not as bad as they used to be. But look at these facts:

**BLACK MEN SHOW NEXT IN U.S. SLAVAN,
1960 - 1970**

(Time, February 25, 1974)

**BLACK TEEN-AGE UNEMPLOYMENT GROWS:
NOW AT 33.5%**

(Detroit Free Press, 7/23/73)

Countless other facts prove the case. But these will do for here.

Along with this assault on the well-being of everyone and particularly minorities, the last few years have witnessed an intolerable increase in the racist theorizing. The most prominent names associated with the theory that blacks and low income whites are genetically inferior in intelligence, and hence unteachable and poor, are Jensen, Herrnstein, Schockley, and Eysenck. But not all such ideas are labelled with their names. Hundreds and thousands of variants of racial inferiority are found in university journals and in public

A preliminary inquiry has been instituted based on information indicating the Committee Against Racism, Washington, D. C., Chapter (CAR, WDCC) could possibly be engaged in activities involving a violation of Title 18, U. S. Code, 2383 (Rebellion or Insurrection), 2384 (Seditious Conspiracy), 2385 (Advocating Overthrow of the Government), or Title 50, U. S. Code, 781-798 (Internal Security Act of 1950).

The Committee Against Racism (CAR) has been publicly described as a national multi-racial rank and file organization made up mainly of faculty, professionals, and undergraduate students. It was formed two years ago to work against the resurgence of racism in higher education and in society in general.

The April 17, 1974, issue of "The Hatchet," the student newspaper at the George Washington University, Washington, D. C., in an article headlined, "CAR Chapters Launch Spring Offensive Against Racism in America" outlined plans for a march and demonstration at the White House on Saturday, April 20 (1974), work shops at American University on Sunday, April 21, and lobbying in Congress on Monday, April 22.

Upon determination that a chapter of the CAR had emerged in the Washington, D. C. (WDC), area, INFORMANT was instructed to report any activity on the part of this organization. Subsequent to the April, 1974, action, source has stated CAR, WDCC has been virtually dormant. Source has reported the CAR does not appear to be a front group of any other organization; however, members of the Progressive Labor Party in the WDC area had attempted to make the CAR, WDCC a front group. Their efforts have been unsuccessful to date. Source is of the opinion that the CAR, WDCC was an Ad hoc group formed solely for the purpose of the April, 1974, demonstration.

Investigation to date has failed to substantiate the basis on which this preliminary inquiry was initiated, and further investigation to fully document the individuals affiliated with the CAR, WDCC is not being conducted.

Apparent Origin of the Committee Against Racism,
Washington, D. C., Chapter

On March 5, 1972, a group of approximately twenty-five persons met at the residence of Mike and Deirdre Golash, 1673 Columbia Road, N.W. An organizational designation could not be attached to the group; however, the persons present were primarily Washington, D. C., area college students who were members of the Progressive Labor Party and/or the Students for a Democratic Society. The meeting convened to discuss methods of exposing racism and racist practices in various area college campuses.

Suggested methods to accomplish these ends which were discussed at the meeting included (1) supporting striking campus workers, (2) exposing racist professors, and (3) banning books that advocate the belief that Blacks are inferior to Whites.

WF T-1, 3/5/72

The Progressive Labor Party (PLP), which was founded in 1965, adopted a constitution which "resolved to build a revolutionary movement" and "build a socialist USA with all power in the hands of the working people." PLP followed the Chinese communist line for several years but became critical of Chinese leaders for establishing a dialogue with the U.S. following President Nixon's visit to China in 1972. Thereafter, PLP declared itself to be an independent Marxist-Leninist organization aimed at setting up a dictatorship of the working class. According to Milton Rosen, National Chairman, the PLP advocates violent overthrow. The PLP, which is headquartered in New York City, has chapters in more than 25 cities in the U.S., and has, in the past year, initiated efforts to make PLP

In 1972, the PLP organized the Workers Action Movement (WAM) as a front group in order to build a base in the trade union movement and to attract workers into PLP.

Worker Student Alliance (WSA), a faction of Students for a Democratic Society (SDS), was expelled from SDS in June, 1969, by the then dominant Weatherman faction but continued to use the name SDS and opened an office in Boston, Massachusetts. WSA aligned ideologically with the Progressive Labor Party (PLP) and in February, 1971, moved to Chicago, Illinois. Students for a Democratic Society/Worker Student Alliance currently shares office space with the PLP in Chicago.

The Young Workers Liberation League (YWLL) is the youth arm of the Communist Party, USA. It was formed as a Marxist-Leninist youth group in February, 1970. It has established chapters throughout the United States for the purpose of educating youths in Marxist-Leninist doctrine and recruiting them into the CPUSA. National headquarters are in New York, New York. The CPUSA is a subversive organization which serves as an arm of the International Communist Movement dominated by the Soviet Union.

On April 21, 1974, at a meeting held on the campus of the American University, members of the Committee Against Racism agreed to stage a demonstration in or near the office of Representative PHILLIP BURTON, California, to protest the harrassment of Black people by the San Francisco Police Department. The demonstration was to take place at 10:00 a.m. on the following day. Representative BURTON represents the Fifth District of California, which covers a portion of the County of San Francisco.

At approximately 9:30 a.m., April 22, 1974, a group of seventy individuals, believed to be members of the Committee Against Racism, appeared at the office of Representative PHILLIP BURTON, California. Mr. BURTON interviewed the group into his office, and the following discussion of the Congressman left at 12:45 p.m., many of the group returning to the campus of the American University.

Aims and Objectives of the CAR

CAR members nationwide are watching closely a case currently pending before the U. S. Supreme Court. The outcome of the case will have a profound effect in supporting or undermining one of CAR's basic aims: to oppose the reliance by society on culturally based aptitude and achievement tests in determining opportunity and reward in American life.

The case involves a lawsuit by a white student against the University of Washington Law School. The student, Marco DeFumis, has charged the law school with "reverse discrimination" because it denied him admission, but admitted a number of black and Spanish-speaking students who had lower scores than his on the Law School Aptitude Test.

CAR has emphasized strongly the fallacy of relying on such standardized tests as the only or main criterion for determining college, graduate school, or law school admission, job opportunities, and so on.

A number of leading scholars have also questioned the validity of such tests, pointing out that they are designed by members of the dominant (white) culture, and emphasize a particular class outlook. Therefore, people who come from that culture, and who have that class outlook, would normally make higher scores on them than would people who come from other cultural and class backgrounds.

Antioch Law School has submitted an "amicus curiae" (friend of the court) brief on behalf of the University of Washington Law School. A number of other organizations such as the United Auto Workers and United Mine Workers are also supporting the school.

The high court, eight of whose nine members are white, should hand down a decision in the case later this term.

CAR also opposes the use of public tax money to support the promotion of theories of racial, social, or class inferiority. Such theories have been cited in attempts to justify currently existing social conditions and the unequal distribution of wealth among people.

Committee Against Racism

SAYS: STOP RACIST HARRASSMENT IN SAN FRANCISCO!

On Wednesday, 150 special San Francisco police, urged on by Mayor Alioto (a prime gubernatorial candidate), began a massive campaign of street searches and car stoppages of black male suspects in an "attempt" to apprehend a, "Zebra" (black on white?) killer(s), accused of murdering 13 whites and wounding 7 others. The "Zebra" killings have been used by the press and the police to create a wave of racist hysteria in the city.

Hundreds of black men fitting the vague description of the suspect-- 20 - 30 years old, 5'9" - 6' tall--have been repeatedly stopped, some three or four times, for as long as 30 minutes. This tactic is unprecedented in a murder investigation and amounts to nothing more than racist harassment of the black population of San Francisco and an attempt to promote fear and suspicion of blacks by whites.

At a time of serious inflation and economic recession when the standard of living of all working people, white and non-white, is drastically falling, the U.S. power structure has been using racism as its major tool to divide and conquer working people in this country.

If we are to achieve a better life for all of us, people of all races must unite and fight to defeat the deadly poison of racism.

JOIN US in OUR MARCH and YOUR STRUGGLE!

WE, THE UNDERSIGNED, THEREFORE PETITION THE CONGRESS OF THE UNITED STATES to oppose all attempts to implement these recommendations of the Committee for Economic Development. We ask, instead, that Congress support the following positive programs:

1. Free tuition financed by federal funds at all public colleges and universities.
2. Federally funded financial aid for students at all public colleges and universities adequate to support them in a decent manner, and based on economic need.
3. Federal funds for the hiring of more faculty and staff at all public colleges and universities in order to expand educational opportunities.
4. Federal funds for both open admissions programs and the supporting educational facilities required to make them constructive for the students.
5. Recognition of the right of all faculty to job security in the form of tenure after a reasonable trial period.
6. Expanded affirmative action designed to guarantee the hiring of faculty and staff and the admission of students from among Black, Latin, Asian, and Native Americans, and women.
7. Increased federal funding for public school systems of a magnitude sufficient to reverse the current disastrous downward trend in the quality of public education.
8. No federal funds for research aimed at "proving" the false thesis that one race or class of people is inferior to another.

PETITION TO CONGRESS

The Committee for Economic Development (CED), an influential organization that is composed primarily of big-business spokesmen but includes leading academic figures, has proposed a plan for higher education. This plan, if implemented, will lower the quantity and quality of education available to most people and further institutionalize racism in our colleges and universities. Indeed, signs of its implementation have already emerged. The CED recommendations and their effects may be summarized as follows.

First, to drastically increase the already prohibitively high tuitions at universities. Traditional programs of higher education leading to professional careers will thus become the exclusive province of the higher income strata of society. All universities will become as inaccessible as Harvard, for example, is today to those from low income backgrounds, who in our society consist disproportionately of Black, Latin, Asian, and Native Americans.

Second, to institute what the CED calls "new types of curricula" and a "wider diversity" of institutions supposedly designed to better serve "the nation's varied manpower requirements." To implement this, state and community colleges will in essence be converted into vocational training schools. The few opportunities for the traditional programs of higher education which remain for low income people will effectively be cut off. All that will remain will be an invidious educational system in which the wealthy are tracked into the professions, and low income white people as well as Black, Latin, Asian, and Native American people are systematically excluded from professional training. A society in which opportunities are restricted on racial and class lines will thus become even more firmly solidified.

Third, to impose 50% tenure quotas and periodic tenure review on faculty. This attack on tenure is masqueraded as an attempt to improve educational standards; it will actually destroy all gains made in faculty working conditions during the last twenty years. Job security will arbitrarily be denied to half the membership of the academic professions. This can only have a disastrous effect on teaching and research programs, and must discriminate against newly hired faculty many of whom belong to oppressed groups that have only recently opened a crack in the barriers to their participation in these professions.

Fourth, the recommendations in the CED report will, if implemented, make public policy of racist theories like those of CED Research Advisory Board member Edward Banfield (The Unheavenly City), Arthur Jensen (Educability and Group Differences) and Richard Herrnstein (IQ in the Meritocracy). Their false theses that Black and poor white people are genetically or culturally inferior serve to justify poverty and unequal opportunity on racial and class lines.

school education. Much of the research behind these theories is funded by the federal government. Such is the case with studies in psychosurgery to control violence in California and elsewhere. Recently, The National Institute of Health (NIH) awarded \$1.5 million to investigators at the University of Hawaii for a study on the genetic roots of cognitive differences among the various national groups of Hawaii.

Clearly, racism, like oil profits, is thriving in 1974 to the danger of almost all Americans. But many argue that this is not so, that racism hurts only the non-white minorities, that it is a black, or Chicano, or native-American problem. CAR, on the other hand, argues that it is hurting working class and middle class whites also. The Federal-Mogul Corporation, a giant auto parts supplier, recently closed its Detroit plant, laying off all its workers and cancelling their pension rights, in order to open a new plant in Alabama. The company big heartedly offered its Detroit workers, who are mostly white and who had been earning \$5.00 an hour, the chance to relocate in Alabama at \$2.50 an hour. Here the racist wage differential has not only impoverished blacks. It has thrown white workers into the unemployment lines. The teaching profession fares no better. Educational

cutbacks, justified by the racist doctrines cited above, are throwing white teachers as well as black teachers out of work at a depression pace.

These are examples of how racism damages the economic well-being of all of us. But racism damages every one of us in still another important way. It disarms us politically. It divides black and white so that we are hampered in our fight to win a decent way of life. We fight at half strength. And why? Because the racist theorizing we have pointed to and which the government supports, the universities cloak with respectability, and the public schools spread far and wide, forces us to fight among ourselves. Meanwhile, our schools get worse, our health care deteriorates, and our jobs disappear. These attacks on our well-being, on our economic and cultural lives, can only be reversed if all of us—black, white, red, brown, and yellow—are politically united and in trim for a counter offensive.

These are the reasons why it is crucial for all of us to fight racism.

Join us in the Spring Action.

Call To Action

The National Committee Against Racism calls on everyone to join in a Spring action against racism in Washington, D.C. on April 20-22, 1974. As the first action during the Nixon administration, it kicks off a renewed campaign to do away with racist practices and ideology. Our call is prompted by:

Accelerated cutbacks in HEALTH and EDUCATION;

SkYROCKETING prices, high unemployment, and sharp reductions in welfare assistance;

Proliferating racist research and theories, most of it funded by the federal government and used to justify government policies which wipe out the meager minority gains of the recent past.

In response to these policies, which attack all working people, professionals and nonprofessionals, Blacks, Chicanos, native Americans, Asian Americans, and others, we will rally and lobby for:

Increased and improved health services for minorities and all working people regardless of income;

High quality, non-racist, free education for all, funded by a substantial increase in the number of teachers, particularly minority teachers;

An end to government funding of racist research, such as projects aimed at "proving" the false thesis that one race or class is inferior to another, psychological experiments in sterilization of minority and low-income groups.

Why Rally & Lobby Against Racism?

As raging inflation cuts our dollars in half, we are asked to stand in unemployment lines. As our children learn in twelve years what we learned in six, we are told it is not the fault of a crumbling education system shot through with racist ideas and attitudes. We are told that it is the inability of black and low income white students to learn. As our standard of living plummets like a rock in water, we are asked to find substitutes for gas, bread, paper, wood, and meat. As oil company earnings and the profits of other monopoly corporations soar, we are forced to sacrifice our well-being on the job and at home, in health and in education.

As always, when the general public declines, an even sharper decline strikes Blacks, Chicanos, native Americans, Asian Americans, low income whites, and the foreign born. Many argue this is not so, that racism is on the wane. They quote alleged increases in job opportunities for minorities, they say things are not as bad as they used to be. But look at these facts:

1960 - 1970

(Time February 25, 1974)

BLACK TEEN-AGE UNEMPLOYMENT GROWS:
NOW AT 33.5%

(Detroit Free Press, 7/23/73)

Countless other facts prove the case. But these will do for here.

Along with this assault on the well-being of everyone and particularly minorities, the last few years have witnessed an intolerable increase in racist theorizing. The most prominent names associated with the theory that blacks and low income whites are genetically inferior in intelligence, and hence unteachable and poor, are Jensen, Herrnstein, Shockley, and Eysenck. But not all such ideas are labeled with their names. Hundreds and thousands of variants of racial inferiority are found in university curricula and in public

COMMITTEE AGAINST RACISM

NH T-1, a source in a position to supply reliable information, advised on March 26, 1974, that the committee was formed to combat the alleged racism in the genetic and race series of Professors LAUGHLIN and GINSBURG of the Anthropology Department faculty. Source advised the group has been non-violent and has shown no tendency whatsoever to become so. The group is a small one and does not necessarily attract any student support outside the Anthropology Department. Source advised the group seems to be at the moment, involved in local campus issues and the only external issue mentioned by the group is their opposition to a Harvard Professor, name unknown, who also holds genetic and race theories condemned by the group. Source could supply no further information at this time.

On September 24, 1974, NH T-2, who is in a position to supply information concerning the Committee against Racism (CAR) and its membership furnished the following information:

CONN CAR was begun at the University of Connecticut by a small group of individuals who felt that racism was being taught on campus by several professors, especially WILLIAM LAUGHLIN and ARNOLD GINSBERG of the Anthropology Department. CAR was formed to combat racist teachings on campus by first exposing racist professors and then by seeking University assistance in silencing these individuals by administrative action, including termination of contracts if necessary. Source stated that it appears that CAR is the only interpreter of what is racism and what is not.

Source likened CAR to a vigilante group in its efforts to combat alleged racism by professors involved in genetic research. Source advised that during the 1973 school year at the University of Connecticut many professors, to whom source referred to as non-critically thinking, joined CAR because they wanted to be on record as being against racism. However, this membership soon dwindled after such individuals as KROCH and FARIS were taking positions of leadership in CAR. Many individuals recognized CAR then as just a tool of the Progressive Labor Party and resigned membership.

In the spring of 1974, source advised CAR attempted to sponsor a faculty resolution that no racism can be taught

COMMITTEE AGAINST RACISM

at the University. This resolution was defeated by a faculty vote. Source stated that this was the event which caused CAR to lose all power and influence on the campus.

Source stated that the National Headquarters for CAR are now either in Detroit at Wayne State or at the University of Wisconsin at Madison. The newsletter "INCAR" now is printed at one of these two locations. CAR, according to source, may be planning to change its name to International Committee Against Racism because there is at present a chapter in Toronto, Canada. Source added that the chapter at Storrs, Connecticut is presently inactive and has a very small membership at this time. The group has no real power on campus at the present time. Source could not supply any further information concerning the group, but stated the group is neither extremist oriented, nor violent.

PROGRESSIVE LABOR PARTY
CHARACTERIZATION OF SUBVERSIVE ORGANIZATION
INTERNAL SECURITY

The Progressive Labor Party (PLP), which was founded in 1965; adopted a constitution which "resolved to build a revolutionary movement" and "build a socialist USA with all power in the hands of the working people." PLP followed the Chinese communist line for several years but became critical of Chinese leaders for establishing a dialogue with the U.S. following President Nixon's visit to China in 1972. Thereafter, PLP declared itself to be an independent Marxist-Leninist organization aimed at setting up a dictatorship of the working class. According to Milton Rosen, National Chairman, the PLP advocates violent overthrow of the Government, but has set no timetable for its overthrow. The PLP, which is headquartered in New York City, has chapters in more than 25 cities in the U.S., and has, in the past year, initiated efforts to make PLP "an international party with the aim of rebuilding a new revolutionary communist movement."

In 1972, the PLP organized the Workers Action Movement (WAM) as a front group in order to build a base in the trade union movement and to attract workers into PLP.

(Revised 7/26/74)

STUDENTS FOR A DEMOCRATIC SOCIETY/
WORKER STUDENT ALLIANCE
FORMERLY KNOWN AS STUDENTS FOR A
DEMOCRATIC SOCIETY
CHARACTERIZATION OF SUBVERSIVE ORGANIZATION
INTERNAL SECURITY

Students for a Democratic Society (SDS) came into existence in June, 1962, and for the remainder of that decade functioned as the leading New Left campus-based student organization in the U.S. From an initial posture of "participatory democracy," SDS moved toward Marxist-Leninist ideological predomination with debate centering on how best to create a revolutionary youth movement. During 1968-1969, internal factionalism developed within SDS resulting in a split in June, 1969, into three organizations: Weatherman; Worker Student Alliance (WSA); and Revolutionary Youth Movement (RYM). Weatherman and RYM are no longer affiliated with SDS, however, WSA continues to use the name SDS.

At the 1970 SDS/WSA National Convention, a confrontation occurred between Progressive Labor Party-(PLP) (a Marxist-Leninist organization advocating violent overthrow of the Government) oriented leadership and various caucuses opposed to PLP domination. The resulting struggle left the PLP-oriented leadership in complete control of SDS/WSA, which was headquartered in Cambridge, Massachusetts.

PLP control of SDS/WSA continued until February, 1974, when the Boston chapter of PLP split from PLP National Headquarters and formed Party for Workers Power (PWP) (a "revolutionary communist" organization advocating the violent overthrow of the government by the workers). SDS/WSA is now fragmented into two groups, one which supports PWP policy headquartered in Cambridge, Massachusetts, and the much larger group which supports PLP policy headquartered in New York City.

COMMITTEE AGAINST RACISM

An article appearing in the February 1, 1974 issue of the "Connecticut Daily Campus"; the official daily student newspaper for the University of Connecticut (UCONN), Storrs, Connecticut, listed the officers for a group calling itself the Campus Committee Against Racism. Officers are as follows:

Co-chairman	LARRY JORDAN
	RUFUS BLANSHARD
Co-secretary	CAROL GOLDSTONE
	HALLIE KRIDER

CONN.

It is to be noted that ANTHONY KROCH is presently an instructor in the Anthropology Department at UCONN and is an admitted member of the Progressive Labor Party (PLP). He is currently under investigation by the New Haven Division. A characterization of the PLP appears at the end of this letter.

JAMES FERRIS is presently an assistant professor in the Anthropology Department at UCONN. He was formerly a faculty advisor to the Students for a Democratic Society (SDS) in 1970. He currently is not a member of the SDS. A characterization of SDS appears at the end of this letter.

COMMITTEE AGAINST RACISM

NH T-1, a source in a position to supply reliable information, advised on March 26, 1974, that the committee was formed to combat the alleged racism in the genetic and race series of Professors LAUGHLIN and GINSBURG of the Anthropology Department faculty. Source advised the group has been non-violent and has shown no tendency whatsoever to become so. The group is a small one and does not necessarily attract any student support outside the Anthropology Department. Source advised the group seems to be at the moment, involved in local campus issues and the only external issue mentioned by the group is their opposition to a Harvard Professor, name unknown, who also holds genetic and race theories condemned by the group. Source could supply no further information at this time.

On September 24, 1974, NH T-2, who is in a position to supply information concerning the Committee against Racism (CAR) and its membership furnished the following information:

CONN CAR was begun at the University of Connecticut by a small group of individuals who felt that racism was being taught on campus by several professors, especially WILLIAM LAUGHLIN and ARNOLD GINSBERG of the Anthropology Department. CAR was formed to combat racist teachings on campus by first exposing racist professors and then by seeking University assistance in silencing these individuals by administrative action, including termination of contracts if necessary. Source stated that it appears that CAR is the only interpreter of what is racism and what is not.

Source likened CAR to a vigilante group in its efforts to combat alleged racism by professors involved in genetic research. Source advised that during the 1973 school year at the University of Connecticut many professors, to whom source referred to as non-critically thinking, joined CAR because they wanted to be on record as being against racism. However, this membership soon dwindled after such individuals as KROCH and FARIS were taking positions of leadership in CAR. Many individuals recognized CAR then as just a tool of the Progressive Labor Party and resigned membership.

In the spring of 1974, source advised CAR attempted to sponsor a faculty resolution that no racism can be taught

COMMITTEE AGAINST RACISM

at the University. This resolution was defeated by a faculty vote. Source stated that this was the event which caused CAR to lose all power and influence on the campus.

Source stated that the National Headquarters for CAR are now either in Detroit at Wayne State or at the University of Wisconsin at Madison. The newsletter "INCAR" now is printed at one of these two locations. CAR, according to source, may be planning to change its name to International Committee Against Racism because there is at present a chapter in Toronto, Canada. Source added that the chapter at Storrs, Connecticut is presently inactive and has a very small membership at this time. The group has no real power on campus at the present time. Source could not supply any further information concerning the group, but stated the group is neither extremist oriented, nor violent.

PROGRESSIVE LABOR PARTY
CHARACTERIZATION OF SUBVERSIVE ORGANIZATION
INTERNAL SECURITY

The Progressive Labor Party (PLP), which was founded in 1965, adopted a constitution which "resolved to build a revolutionary movement" and "build a socialist USA with all power in the hands of the working people." PLP followed the Chinese communist line for several years but became critical of Chinese leaders for establishing a dialogue with the U.S. following President Nixon's visit to China in 1972. Thereafter, PLP declared itself to be an independent Marxist-Leninist organization aimed at setting up a dictatorship of the working class. According to Milton Rosen, National Chairman, the PLP advocates violent overthrow of the Government, but has set no timetable for its overthrow. The PLP, which is headquartered in New York City, has chapters in more than 25 cities in the U.S., and has, in the past year, initiated efforts to make PLP "an international party with the aim of rebuilding a new revolutionary communist movement."

In 1972, the PLP organized the Workers Action Movement (WAM) as a front group in order to build a base in the trade union movement and to attract workers into PLP.

(Revised 7/26/74)

STUDENTS FOR A DEMOCRATIC SOCIETY/
WORKER STUDENT ALLIANCE
FORMERLY KNOWN AS STUDENTS FOR A
DEMOCRATIC SOCIETY
CHARACTERIZATION OF SUBVERSIVE ORGANIZATION
INTERNAL SECURITY

Students for a Democratic Society (SDS) came into existence in June, 1962, and for the remainder of that decade functioned as the leading New Left campus-based student organization in the U.S. From an initial posture of "participatory democracy," SDS moved toward Marxist-Leninist ideological predomination with debate centering on how best to create a revolutionary youth movement. During 1968-1969, internal factionalism developed within SDS resulting in a split in June, 1969, into three organizations: Weatherman; Worker Student Alliance (WSA); and Revolutionary Youth Movement (RYM). Weatherman and RYM are no longer affiliated with SDS, however, WSA continues to use the name SDS.

At the 1970 SDS/WSA National Convention, a confrontation occurred between Progressive Labor Party-(PLP) (a Marxist-Leninist organization advocating violent overthrow of the Government) oriented leadership and various caucuses opposed to PLP domination. The resulting struggle left the PLP-oriented leadership in complete control of SDS/WSA, which was headquartered in Cambridge, Massachusetts.

PLP control of SDS/WSA continued until February, 1974, when the Boston chapter of PLP split from PLP National Headquarters and formed Party for Workers Power (PWP) (a "revolutionary communist" organization advocating the violent overthrow of the government by the workers). SDS/WSA is now fragmented into two groups, one which supports PWP policy headquartered in Cambridge, Massachusetts, and the much larger group which supports PLP policy headquartered in New York City.

CAR P.O. Box 836
Roxbury, Massachusetts 02120

Dear friend:

The Committee Against Racism (CAR) is organizing Boston Freedom Summer '75, a counteroffensive against the racist forces in Boston, and we need your help. CAR is an international, multiracial organization actively fighting racism in education and other important areas of life. We believe that racism hurts us all--black, white, latin, Asian and native American--because it prevents the unity we all need to work for social change.

Boston has become the national center of a new wave of racism that is sweeping the country. If the racist movement in Boston, led by powerful and influential politicians, goes unchallenged, it can move the entire country in a fascist-like direction.

This is why CAR is organizing hundreds of volunteers from all over the country for a summer of intensive anti-racist activity in Boston. These volunteers will work with a broad range of local groups, canvass door-to-door in the city's neighborhoods, distribute leaflets, hold rallies and demonstrations. The goal is to undermine the political base of the racists and create a vigorous anti-racist, multi-racial movement which will fight for improved education for all school children.

We in Boston CAR, and the summer volunteers, need your help NOW. You and/or your organization can;

- Provide housing for one or more volunteers from out of town for all or ~~part~~ of the summer.
- Sponsor an anti-racist volunteer for the summer by raising \$200 or more.
- Contribute funds for literature, office expenses, mailing costs, etc.
- Invite a speaker from CAR to address your organization, class, and/or group of friends and neighbors in your home about the Summer Project.
- Participate yourself by helping us organize for the Project, by suggesting groups we can contact, and by introducing your friends to CAR.
- Officially endorse the Boston Freedom Summer '75.

Finally, YOU ARE INVITED to the CAR East Coast Organizing Conference for the Summer Project, in Boston, Saturday afternoon, April 12, exact time and place to be announced.

Sincerely,
Boston Committee Against Racism

I/we would like to help the Boston Freedom Summer '75, in the ways checked above. (Please sign and return this form to CAR Box 836, Roxbury 02120)
Enclosed is a check for _____ to support the activities of CAR this summer.
(Please make checks out to Committee Against Racism.)
Please contact me before the April 12 Conference.

INTERNATIONAL COMMITTEE AGAINST RACISM (INCAR)
IS & PLP

For information of receiving offices, a preliminary investigation of INCAR, often referred to as Committee Against Racism (CAR), has been initiated to determine extent of Progressive Labor Party (PLP) domination and to determine if INCAR is, in fact, a front group of PLP.

The stated objective of INCAR is to combat racism. This, of course, is a legitimate goal and does not constitute the basis for our investigation. It must be understood that this investigation is directed solely towards establishing the extent of PLP involvement in INCAR.

Detroit is designated office of origin since the National Headquarters of INCAR is in Highland Park, Michigan. It is noted that Kathi Whiteside, listed in an INCAR publication, as Administrative Director of INCAR, is a PLP member. All offices with INCAR activity expedite investigation of this group bearing in mind, as a preliminary inquiry, investigation is confined to established sources. Submit results of your investigation along with recommendations for further action within 90 days. Detroit, as office of origin, will coordinate investigation. Utilize character as above.

NOTE:

Informants, including WE 3751-S, NH 1471-PSI
BS 2176-S, BA 2728-PSI, HO 2123-S and NY 4965-S, all PLP sources, have reported on PLP involvement in INCAR activities in each of their respective divisions. While the degree of involvement varies, it appears that the PLP has been the dominant force in organizing activities of INCAR in each field division. It is noted that many individuals listed as INCAR leaders are or have been PLP members. Boston, in 4/75, advised that INCAR appears to be a front group of the PLP or at least significantly dominated by PLP. Recent INCAR activity appears to be centered in Boston, where it is involved in the alleged racism problems in the city schools. Numerous references to INCAR are found in issues of the PLP weekly newspaper, "Challenge." While the above offices have reported INCAR activity, a review of the file reveals no coordinated investigation has been conducted to determine overall extent of PLP involvement. Letter sent to all offices having PLP activity. The PLP is a Marxist-Leninist revolutionary organization headquartered in New York City.

On 3/19/75, (NY 4965-S), who has furnished reliable information in the past, advised SA PATRICK W. HIGGINS, that on 3/7/75, MILTON ROSEN, Vice-President of the Progressive Labor Party (PLP), addressed a meeting of about 200 people at Loeb Students Center, New York University, NYC.

ROSEN stated that the PLP's Boston, Massachusetts, activities were to be aimed at breaking the fascist organization which has emerged around the School Busing program. He stated that workers and minorities must "smash" this fascist outburst before it spreads and that the PLP has decided to converge on Boston to show some form of muscle in order that such fascist tendencies should be eliminated from society. He urged his audience to follow PLP leadership in order to wage an armed struggle to defeat capitalism.

It is noted that the National Headquarters of INCAR is listed as in care of KATHLEEN WHITESIDE, Administrative Director, Highland Park, Michigan, 48203, and accordingly the Detroit Office is being designated as office of origin.

Its National Chairman for "Boston, '75" is BILL IVERSON, 1300 Lafayette E. No. 412, Detroit, Michigan, 48207.

(NY 4965-S) has been advised by an African member of the PLP, who appears to be obtaining financial aid from them to support his activities on behalf of INCAR and CAR (Committee Against Racism), that the PLP is the controlling influence in both INCAR and CAR.

BOSTON '75:
A Call to Action—The International
Committee Against Racism

The Steering Committee of the International Committee Against Racism (CAR) calls on students and other interested people to join our Freedom Summer Anti-Racist Action Project. Its purpose is to give a national/international focus to the anti-racist struggles going on in Boston. Summer volunteers will work under the leadership of Boston CAR. Together, they will prepare the way for a strong people's movement which will unite blacks, whites, and other minorities to fight for quality, desegregated education and to fight against the racism being used to wreck the bussing program.

This struggle will have a programmatic focus. Our aim is to select seriously committed people, students and others, but especially students, who will work on commuter campuses. Student volunteers must register at these schools in order to be effective. Some people may get jobs. A few may be assigned to community organizations. Other will talk to workers at plant gates and in union halls. The main focus will be on working with Boston students, parents, and teachers especially those from ethnic communities like South Boston and Roxbury.

A CAR sub-committee (Boston '75) will coordinate all activities. Two one-week anti-racist schools will be opened June and July with weekly workshops to prepare our volunteers for the correct ways of interacting with the Boston community. The key strategy is alliances with existing, rank-and-file forces already mobilized against racist attacks. The result will be solid, citywide CAR chapters and other rank-and-file anti-racist groups, tremendous experiences for our volunteers, and CAR itself will grow. Only in such a united, rank-and-file, multiracial, mass movement can we defeat racism—in Boston and everywhere.

WHY IS BOSTON FREEDOM SUMMER '75 SO IMPORTANT?

Because the power structure has kept Boston in a turmoil. Anti-racist actions, are swept under the rug, while pro-racist activity resembling fascism, is given top billing. Boston is the international/national expression of racist ideas published by Jensen, Herrnstein, and Banfield to justify the failures of the System. Further Boston racists are totally organized by political forces more dangerous than those in the South. The school board, the President, other politicians, and even the U.S. Supreme Court abet the resistance.

Moreover, racism is preventing working and middle-class people from getting a decent school system to replace a poor one. Racism is keeping blacks, whites, and other people from fighting back against unemployment, the cutbacks which are ruining health, education, and welfare in the Boston area. Boston Freedom Summer '75 will help many white Bostonians especially to begin to understand that racism hurts them. That without multiracial unity, there is no decent life for anyone. CAR BELIEVES THAT WE CAN REACH THE SILENT MAJORITY OF WHITE ANTI-RACIST AND BRING THEM INTO OPEN STRUGGLE. By hindering the attempt to create even further racial turmoil around the 75-76 bussing program, we will greatly improve our chances of creating an international movement against racism.

MOST OF ALL, Boston is the test whether or not racist mob-violence, similar to FASCISM, combined with political racism can succeed in stopping the desegregation movement. CAR says with this summer project, "THE RACISTS ARE GONNA FLUNK THIS TEST!!!"

This investigation is based upon information which indicates that CAR is engaged in activities which could involve violations of Title 18, U.S. Code, Sections 2383 (Rebellion or Insurrection), 2384 (Seditious Conspiracy) and 2385 (Advocating Overthrow of the Government) and Title 50, U.S. Code, 781-798 (Internal Security Act of 1950 and the Communist Control Act of 1954).

On several occasions within the past few months, forums on racism have been conducted and sponsored by CAR in the Baltimore, Maryland areas. Members of the Baltimore Chapter of the PLP/WAM have played an active role in organizing these forums. This PLP/WAM members have participated in the forum in such roles as chairman or speakers.

On 12/11/74, a member of the PLP/WAM in Baltimore, Maryland advised (BA 2728-PSI) that much, but not all, of CAR's activities (in Baltimore) and publications are funded by PLP money and that PLP provides support because they are in sympathy with the goals of CAR.

SUBJECT: COMMITTEE AGAINST RACISM,

IS - CAR

Attached are five copies for the Bureau and one copy each for Baltimore and New Haven of an LHM, dated as above, captioned "Committee Against Racism, Washington, D. C., Chapter."

A preliminary inquiry has been instituted based on information indicating the Committee Against Racism, Washington, D. C., Chapter (CAR, WDCC) could possibly be engaged in activities involving a violation of Title 18, U. S. Code, 2383 (Rebellion or Insurrection), 2384 (Seditious Conspiracy), 2385 (Advocating Overthrow of the Government), or Title 50, U. S. Code, 781-798 (Internal Security Act of 1950).

The Committee Against Racism (CAR) has been publicly described as a national multi-racial rank and file organization made up mainly of faculty, professionals, and undergraduate students. It was formed two years ago to work against the resurgence of racism in higher education and in society in general.

The April 17, 1974, issue of "The Hatchet," the student newspaper at the George Washington University, Washington, D. C., in an article headlined, "CAR Chapters Launch Spring Offensive Against Racism in America" outlined plans for a march and demonstration at the White House on Saturday, April 20 (1974), work shops at American University on Sunday, April 21, and lobbying in Congress on Monday, April 22.

Information copies being furnished to Baltimore as investigation has identified individuals affiliated with the CAR, WDCC residing within the territory covered by that office

Special Agents who observed the demonstration mentioned in attached LHM on 4/20/74, are SAs CLAUDE W. BOGLEY, EDWIN A. WAITE, JR., and EUGENE A. BRENNAN.

The pretext telephone call mentioned in attachment which occurred on 5/8/74, was made by SA BRENNAN.

Upon determination that a chapter of the CAR had emerged in the Washington, D. C. (WDC), area, WF 3751-S was instructed to report any activity on the part of this organization. Subsequent to the April, 1974, action, source has stated CAR, WDCC has been virtually dormant. Source has reported the CAR does not appear to be a front group of any other organization; however, members of the Progressive Labor Party in the WDC area had attempted to make the CAR, WDCC a front group. Their efforts have been unsuccessful to date. Source is of the opinion that the CAR, WDCC was an ad hoc group formed solely for the purpose, of the April, 1974, demonstration.

Investigation to date has failed to substantiate the basis on which this preliminary inquiry was initiated, and further investigation to fully document the individuals affiliated with the CAR, WDCC is not being conducted.

COMMITTEE AGAINST RACISM
WASHINGTON, D. C., CHAPTER

Apparent Origin of the Committee Against Racism,
Washington, D. C., Chapter

On March 5, 1972, a group of approximately twenty-five persons met at the residence of Mike and Deirdre Golash, 1673 Columbia Road, N.W. An organizational designation could not be attached to the group; however, the persons present were primarily Washington, D. C., area college students who were members of the Progressive Labor Party and/or the Students for a Democratic Society. The meeting convened to discuss methods of exposing racism and racist practices in various area college campuses.

Suggested methods to accomplish these ends which were discussed at the meeting included (1) supporting striking campus workers, (2) exposing racist professors, and (3) banning books that advocate the belief that Blacks are inferior to Whites.

WF T-1, 3/5/72

The Progressive Labor Party (PLP), which was founded in 1965, adopted a constitution which "resolved to build a revolutionary movement" and "build a socialist USA with all power in the hands of the working people." PLP followed the Chinese communist line for several years but became critical of Chinese leaders for establishing a dialogue with the U.S. following President Nixon's visit to China in 1972. Thereafter, PLP declared itself to be an independent Marxist-Leninist organization aimed at setting up a dictatorship of the working class. According to Milton Rosen, National Chairman, the PLP advocates violent overthrow. The PLP, which is headquartered in New York City, has chapters in more than 25 cities in the U.S., and has, in the past year, initiated efforts to make PLP

"an international party with the aim of rebuilding a new revolutionary communist movement."

In 1972, the PLP organized the Workers Action Movement (WAM) as a front group in order to build a base in the trade union movement and to attract workers into PLP.

Worker Student Alliance (WSA), a faction of Students for a Democratic Society (SDS), was expelled from SDS in June, 1969, by the then dominant Weatherman faction but continued to use the name SDS and opened an office in Boston, Massachusetts. WSA aligned ideologically with the Progressive Labor Party (PLP) and in February, 1971, moved to Chicago, Illinois. Students for a Democratic Society/Worker Student Alliance currently shares office space with the PLP in Chicago.

Deirdre Golash, a Graduate Assistant in the Philosophy Department at the University of Maryland, is a member of the Progressive Labor Party, the Students for a Democratic Society, and the Workers Action Movement.

C., area, having been founded in 1972 on the campus of the University of Connecticut, Storrs, Connecticut. A Progressive Labor Party member from Washington, D. C., was one of the persons who attended the founding convention of CAR in New York City.

In the organization known as the Committee Against Racism, Washington, D. C., Chapter, the Progressive Labor Party is working inside the Chapter, and various Progressive Labor Party members belong to most of the committees of the Chapter.

WF T-3, 3/20/74

Members of the Progressive Labor Party distributed leaflets on the campus of the University of Maryland, College Park, Maryland, on April 16, 1974. These leaflets announced that the Committee Against Racism had scheduled a demonstration in Washington, D. C., on April 20, 1974.

WF T-3, 5/15/74

Several members of the Progressive Labor Party participated in the April 20, 1974, demonstration sponsored by the CAR. These individuals took part in a march on Saturday, April 20, and attended workshops held on the following day on the campus of the American University.

The number of persons who participated in the April 20-24 march and demonstration sponsored by the CAR, surprised the leaders of the Progressive Labor Party in the Washington, D. C., area who reached the decision that an even greater emphasis should be placed on the demonstration of the CAR by the PLP.

and undergraduate students. It was formed in 1972 to work against the resurgence against racism in higher education and in society generally.

CAR chapters throughout the country set April 19-22, 1974 as the dates for a major national action/conference to combat racism in education, medical care, and medical research. The main focus of the action was to be a lobbying rally in Washington, D. C.; however, small, local activities in other locations around the U. S. were also planned. The following was a schedule: (1) a march and demonstration of the White House on Saturday, April 20, (2) workshops at American University on Sunday, April 21, (3) lobbying in Congress on Monday, April 22.

The April 20 demonstration planned opposition to the recent Committee on Economic Development (CED) report, which calls for doubling of tuition and reduction of financial aid by state institutions of higher education, "tracking" for Black and working class students, and virtual elimination of job security through tenure for new faculty. An additional focus of the CAR action would involve opposing the recent CED plans for turning state colleges into primarily centers for technical and occupational training. Also the demonstration would oppose continuing government funding of racist research projects.

On April 20, 1974, representatives of the Federal Bureau of Investigation observed a demonstration sponsored by the CAR, which began at approximately 1:00 p.m. in the vicinity of the entrance of the Federal City College building at 10th and E Streets, N.W. Approximately two hundred individuals took part in this demonstration which involved distribution of literature published by the Committee and speeches by three or four unidentified speakers utilizing a blowhorn at 10th and E Streets, N.W. The literature distributed on this occasion is attached to this report as an appendix. At approximately 2:30, the two hundred individuals began a march to Lafayette Park, 16th and Pennsylvania Avenue, N.W., directly across the street from the White House,

Upon arrival at Lafayette Park, the speakers mounted a platform where microphones carried speeches to members of the crowd.

The Young Workers Liberation League (YWLL) is the youth arm of the Communist Party, USA. It was formed as a Marxist-Leninist youth group in February, 1970. It has established chapters throughout the United States for the purpose of educating youths in Marxist-Leninist doctrine and recruiting them into the CPUSA. National headquarters are in New York, New York. The CPUSA is a subversive organization which serves as an arm of the International Communist Movement dominated by the Soviet Union.

On April 21, 1974, at a meeting held on the campus of the American University, members of the Committee Against Racism agreed to stage a demonstration in or near the office of Representative PHILLIP BURTON, California, to protest the harrassment of Black people by the San Francisco Police Department. The demonstration was to take place at 10:00 a.m. on the following day. Representative BURTON represents the Fifth District of California, which covers a portion of the County of San Francisco.

WF T-4, 4/21/74

At approximately 9:30 a.m., April 22, 1974, a group of seventy individuals, believed to be members of the Committee Against Racism, appeared at the office of Representative PHILLIP BURTON, California. Mr. BURTON interviewed the group into his office, and the following discussion of the Congressman left at 12:45 p.m., many of the group returning to the campus of the American University.

Aims and Objectives of the CAR

CAR members nationwide are watching closely a case currently pending before the U. S. Supreme Court. The outcome of the case will have a profound effect in supporting or undermining one of CAR's basic aims: to oppose the reliance by society on culturally based aptitude and achievement tests in determining opportunity and reward in American life.

The case involves a lawsuit by a white student against the University of Washington Law School. The student, Marco DeFumis, has charged the law school with "reverse discrimination" because it denied him admission, but admitted a number of black and Spanish-speaking students who had lower scores than his on the Law School Aptitude Test.

CAR has emphasized strongly the fallacy of relying on such standardized tests as the only or main criterion for determining college, graduate school, or law school admission, job opportunities, and so on.

A number of leading scholars have also questioned the validity of such tests, pointing out that they are designed by members of the dominant (white) culture, and emphasize a particular class outlook. Therefore, people who come from that culture, and who have that class outlook, would normally make higher scores on them than would people who come from other cultural and class backgrounds.

Antioch Law School has submitted an "amicus curiae" (friend of the court) brief on behalf of the University of Washington Law School. A number of other organizations such as the United Auto Workers and United Mine Workers are also supporting the school.

The high court, eight of whose nine members are white, should hand down a decision in the case later this term.

CAR also opposes the use of public tax money to support the promotion of theories of racial, social, or class inferiority. Such theories have been cited in attempts to justify currently existing social conditions and the unequal distribution of wealth among people.

The Committee Against Racism says: STOP RACIST HARRASSMENT IN SAN FRANCISCO!

On Wednesday, 150 special San Francisco police, urged on by Mayor

Alioto (a prime gubernatorial candidate), began a massive campaign of street searches and car stoppages of black male suspects in an "attempt" to apprehend a "Zebra" (black on white?) killer(s), accused of murdering 13 whites and wounding 7 others. The "Zebra" killings have been used by the press and the police to create a wave of racist hysteria in the city.

Hundreds of black men fitting the vague description of the suspect-- 20 - 30 years old, 5'9" - 6' tall--have been repeatedly stopped, some three or four times, for as long as 30 minutes. This tactic is unprecedented in a murder investigation and amounts to nothing more than racist harrassment of the black population of San Francisco and an attempt to promote fear and suspicion of blacks by whites.

At a time of serious inflation and economic recession when the standard of living of all working people, white and non-white, is drastically falling, the U.S. power structure has been using racism as its major tool to divide and conquer working people in this country.

If we are to achieve a better life for all of us, people of all races must unite and fight to defeat the deadly poison of racism.

JOIN US in OUR MARCH and YOUR STRUGGLE!

WE, THE UNDERSIGNED, THEREFORE PETITION THE CONGRESS OF THE UNITED STATES to oppose all attempts to implement these recommendations of the Committee for Economic Development. We ask, instead, that Congress support the following positive programs:

1. Free tuition financed by federal funds at all public colleges and universities.
2. Federally funded financial aid for students at all public colleges and universities adequate to support them in a decent manner, and based on economic need.
3. Federal funds for the hiring of more faculty and staff at all public colleges and universities in order to expand educational opportunities.
4. Federal funds for both open admissions programs and the supporting educational facilities required to make them constructive for the students.
5. Recognition of the right of all faculty to job security in the form of tenure after a reasonable trial period.
6. Expanded affirmative action designed to guarantee the hiring of faculty and staff and the admission of students from among Black, Latin, Asian, and Native Americans, and women.
7. Increased federal funding for public school systems of a magnitude sufficient to reverse the current disastrous downward trend in the quality of public education.
8. No federal funds for research aimed at "proving" the false thesis that one race or class of people is inferior to another.

PETITION TO CONGRESS

The Committee for Economic Development (CED), an influential organization that is composed primarily of big-business spokesmen but includes leading academic figures, has proposed a plan for higher education. This plan, if implemented, will lower the quantity and quality of education available to most people and further institutionalize racism in our colleges and universities. Indeed, signs of its implementation have already emerged. The CED recommendations and their effects may be summarized as follows.

First, to drastically increase the already prohibitively high tuitions at universities. Traditional programs of higher education leading to professional careers will thus become the exclusive province of the higher income strata of society. All universities will become as inaccessible as Harvard, for example, is today to those from low income backgrounds, who in our society consist disproportionately of Black, Latin, Asian, and Native Americans.

Second, to institute what the CED calls "new types of curricula" and a "wider diversity" of institutions supposedly designed to better serve "the nation's varied manpower requirements." To implement this, state and community colleges will in essence be converted into vocational training schools. The few opportunities for the traditional programs of higher education which remain for low income people will effectively be cut off. All that will remain will be an invidious educational system in which the wealthy are tracked into the professions, and low income white people as well as Black, Latin, Asian, and Native American people are systematically excluded from professional training. A society in which opportunities are restricted on racial and class lines will thus become even more firmly solidified.

Third, to impose 50% tenure quotas and periodic tenure review on faculty. This attack on tenure is masqueraded as an attempt to improve educational standards; it will actually destroy all gains made in faculty working conditions during the last twenty years. Job security will arbitrarily be denied to half the membership of the academic professions. This can only have a disastrous effect on teaching and research programs, and must discriminate against newly hired faculty many of whom belong to oppressed groups that have only recently opened a crack in the barriers to their participation in these professions.

Fourth, the recommendations in the CED report will, if implemented, make public policy of racist theories like those of CED Research Advisory Board member Edward Banfield (The Unheavenly City), Arthur Jensen (Educability and Group Differences) and Richard Herrnstein (IQ in the Meritocracy). Their false theses that Black and poor white people are genetically or culturally inferior serve to justify poverty and unequal opportunity on racial and class lines.

school education. Much of the research behind these theories is funded by the federal government. Such is the case with studies in psychosurgery to control violence in California and elsewhere. Recently, The National Institute of Health (NIH) awarded \$1.5 million to investigators at the University of Hawaii for a study into the genetic roots of cognitive differences among the various national groups of Hawaii.

Clearly, racism, like oil profits, is thriving in 1974 to the danger of almost all Americans. But many argue that this is not so, that racism hurts only the non-white minorities, that it is a black, or Chicano, or native-American problem. CAR, on the other hand, argues that it hurts working class and middle class whites also. The Federal-Mogul Corporation, a giant auto parts supplier, recently closed its Detroit plant, laying off all its workers and cancelling their pension rights, in order to open a new plant in Alabama. The company big heartedly offered its Detroit workers, who are mostly white and who had been earning \$5.00 an hour, the chance to relocate in Alabama at \$2.50 an hour. Here the racist wage differential has not only impoverished blacks. It has thrown white workers into the unemployment lines. The teaching profession fares no better. Educational

cutbacks, justified by the racist doctrines cited above, are throwing white teachers as well as black teachers out of work at a depression pace.

These are examples of how racism damages the economic well-being of all of us. But racism damages every one of us in still another important way. It disarms us politically. It divides black and white so that we are hampered in our fight to win a decent way of life. We fight at half strength. And why? Because the racist theorizing we have pointed to and which the government supports, the universities cloak with respectability, and the public schools spread far and wide, forces us to fight among ourselves. Meanwhile, our schools get worse, our health care deteriorates, and our jobs disappear. These attacks on our well-being, on our economic and cultural lives, can only be reversed if all of us—black, white, red, brown, and yellow—are politically united and in trim for a counter offensive.

These are the reasons why it is crucial for all of us to fight racism.

Join us in the Spring Action.

Committee Against Racism

Call To Action

The National Committee Against Racism calls on everyone to join in a Spring action against racism in Washington, D.C. on April 20-22, 1974. As the first such action during the Nixon administration, it kicks off an unrelenting campaign to do away with racist practices and ideology. Our call is prompted by:

- Accelerated cutbacks in HEALTH and EDUCATION;

- Skyrocketing prices, high unemployment, and sharp reductions in welfare assistance;

- Proliferating racist research and theories, most of it at universities and much of it funded by the federal government and used to justify government policies that wipe out the meager minority gains of the recent past.

In response to these policies, which attack all working people, professionals and nonprofessionals, Blacks, Chicanos, native Americans, Asian Americans, and Whites, we will rally and lobby for:

- Increased and improved health services for minorities and all working people regardless of income;

- High quality, non-racist, free education for all, staffed by a substantial increase in the number of teachers, particularly minority teachers;

- An end to government funding of racist research, such as projects aimed at "proving" the false thesis that one race or class is inferior to another, psychosurgery, and experiments in sterilization of minority and low-income groups.

Committee Against Racism

Why Rally & Lobby Against Racism?

As raging inflation cuts our dollars in half, we are asked to stand in unemployment lines. As our children learn in twelve years what we learned in six, we are told it is not the fault of a crumbling education system shrouded through with racist ideas and attitudes. We are told that it is the inability of black and low income white students to learn. As our standard of living plummets like a rock in water, we are asked to find substitutes for gas, bread, paper, wood, and meat. As oil company earnings and the profits of other monopoly corporations soar, we are forced to sacrifice our well-being on the job and home, in health and in education.

As always, when the general welfare declines, even sharper decline strikes Blacks, Chicanos, native Americans, Asian Americans, low income whites, and the foreign born. Many argue this is not so, that racism is on the wane. They quote alleged increases in job opportunities for minorities, they say things are not as bad as they used to be. But look at these facts:

**BLACK MEN SHOW DEEP IN LINE SPAN,
1960 - 1970**

(Time, February 25, 1974)

**BLACK TEEN-AGE UNEMPLOYMENT GROWS:
NOW AT 33.5%**

(Detroit Free Press, 7/23/73)

Countless other facts prove the case. But these will do for here.

Along with this assault on the well-being of everyone and particularly minorities, the last few years have witnessed an intolerable increase in racist theorizing. The most prominent names associated with the theory that blacks and low income whites are genetically inferior in intelligence, and hence unteachable and poor, are Jensen, Herrnstein, Schockley, and Eysenck. But not all such ideas are filled with the names. Hundreds and thousands of variants of racial inferiority are found in university curricula and in pub-

ENCLOSURE

COMMITTEE AGAINST RACISM

NH T-1, a source in a position to supply reliable information, advised on March 26, 1974, that the committee was formed to combat the alleged racism in the genetic and race series of Professors LAUGHLIN and GINSBURG of the Anthropology Department faculty. Source advised the group has been non-violent and has shown no tendency whatsoever to become so. The group is a small one and does not necessarily attract any student support outside the Anthropology Department. Source advised the group seems to be at the moment, involved in local campus issues and the only external issue mentioned by the group is their opposition to a Harvard Professor, name unknown, who also holds genetic and race theories condemned by the group. Source could supply no further information at this time.

On September 24, 1974, NH T-2, who is in a position to supply information concerning the Committee against Racism (GAR) and its membership furnished the following information:

CAR was begun at the University of Connecticut by a small group of individuals who felt that racism was being taught on campus by several professors, especially WILLIAM LAUGHLIN and ARNOLD GINSBERG of the Anthropology Department. CAR was formed to combat racist teachings on campus by first exposing racist professors and then by seeking University assistance in silencing these individuals by administrative action, including termination of contracts if necessary. Source stated that it appears that CAR is the only interpreter of what is racism and what is not.

Source likened CAR to a vigilante group in its efforts to combat alleged racism by professors involved in genetic research. Source advised that during the 1973 school year at the University of Connecticut many professors, to whom source referred to as non-critically thinking, joined CAR because they wanted to be on record as being against racism. However, this membership soon dwindled after such individuals as KROCH and FARIS were taking positions of leadership in CAR. Many individuals recognized CAR then as just a tool of the Progressive Labor Party and resigned membership.

In the spring of 1974, source advised CAR attempted to sponsor a faculty resolution that no racism can be taught

COMMITTEE AGAINST RACISM

at the University. This resolution was defeated by a faculty vote. Source stated that this was the event which caused CAR to lose all power and influence on the campus.

Source stated that the National Headquarters for CAR are now either in Detroit at Wayne State or at the University of Wisconsin at Madison. The newsletter "INCAR" now is printed at one of these two locations. CAR, according to source, may be planning to change its name to International Committee Against Racism because there is at present a chapter in Toronto, Canada. Source added that the chapter at Storrs, Connecticut is presently inactive and has a very small membership at this time. The group has no real power on campus at the present time. Source could not supply any further information concerning the group, but stated the group is neither extremist oriented, nor violent.

PROGRESSIVE LABOR PARTY
CHARACTERIZATION OF SUBVERSIVE ORGANIZATION
INTERNAL SECURITY

The Progressive Labor Party (PLP), which was founded in 1965, adopted a constitution which "resolved to build a revolutionary movement" and "build a socialist USA with all power in the hands of the working people." PLP followed the Chinese communist line for several years but became critical of Chinese leaders for establishing a dialogue with the U.S. following President Nixon's visit to China in 1972. Thereafter, PLP declared itself to be an independent Marxist-Leninist organization aimed at setting up a dictatorship of the working class. According to Milton Rosen, National Chairman, the PLP advocates violent overthrow of the Government, but has set no timetable for its overthrow. The PLP, which is headquartered in New York City, has chapters in more than 25 cities in the U.S., and has, in the past year, initiated efforts to make PLP "an international party with the aim of rebuilding a new revolutionary communist movement."

In 1972, the PLP organized the Workers Action Movement (WAM) as a front group in order to build a base in the trade union movement and to attract workers into PLP.

(Revised 7/26/74)

STUDENTS FOR A DEMOCRATIC SOCIETY/
WORKER STUDENT ALLIANCE
FORMERLY KNOWN AS STUDENTS FOR A
DEMOCRATIC SOCIETY
CHARACTERIZATION OF SUBVERSIVE ORGANIZATION
INTERNAL SECURITY

Students for a Democratic Society (SDS) came into existence in June, 1962, and for the remainder of that decade functioned as the leading New Left campus-based student organization in the U.S. From an initial posture of "participatory democracy," SDS moved toward Marxist-Leninist ideological predomination with debate centering on how best to create a revolutionary youth movement. During 1968-1969, internal factionalism developed within SDS resulting in a split in June, 1969, into three organizations: Weatherman; Worker Student Alliance (WSA); and Revolutionary Youth Movement (RYM). Weatherman and RYM are no longer affiliated with SDS, however, WSA continues to use the name SDS.

At the 1970 SDS/WSA National Convention, a confrontation occurred between Progressive Labor Party-(PLP) (a Marxist-Leninist organization advocating violent overthrow of the Government) oriented leadership and various caucuses opposed to PLP domination. The resulting struggle left the PLP-oriented leadership in complete control of SDS/WSA, which was headquartered in Cambridge, Massachusetts.

PLP control of SDS/WSA continued until February, 1974, when the Boston chapter of PLP split from PLP National Headquarters and formed Party for Workers Power (PWP) (a "revolutionary communist" organization advocating the violent overthrow of the government by the workers). SDS/WSA is now fragmented into two groups, one which supports PWP policy headquartered in Cambridge, Massachusetts, and the much larger group which supports PLP policy headquartered in New York City.

Group" in Morepark, California, 2/23/72, a speaker referred to themselves as patriotic revolutionaries who would lead in putting down the Communist-Jew-Negro Conspiracy and said that the coming blood bath would free their country. It was also said that INFORMANT reported on 6/6/72, that persons in attendance at meetings of the MCC in Glendale, California, had openly advocated the overthrow of the Government and elimination of President Nixon.

In report of SA ALBERT N. CARLBLOM, 10/17/72, Los Angeles, captioned "WILLIAM POTTER GALE", it was set forth that INFORMANT on 10/11/71, had described the MCC as not like any other church and as being a cover for an underground Army.

Page 6 of this report set forth information from INFORMANT that six members of the "Identity Group" had been meeting on weekends and practiced shooting. They possessed firearms and claimed they were going to strike the first blow.

It is noted that "Identity" is a publication of the MCC, Post Office Box 423, Glendale, California, and is published quarterly.

This report sets forth on page 10, that INFORMANT on 8/1/72, had reported that GALE had organized a Christian Posse Association and was using the publication "Identity" to promote it. He urged formation of Christian Posses across the country to fight the so called enemies of America, such as the Federal Government.

On 2/24/72, INFORMANT advised that Col. BILLY GALE had organized posses throughout the country and expected that these groups would have radio contact. This source attended meetings at the residence of Dr. CHURCH ELWOOD MURDOCK in Mobile, in April, 1972, at which tapes prepared by Col. GALE were played. During these meetings of the MCC at the residence of Dr. MURDOCK, there was talk about firearms but no information was developed concerning any supply of guns or ammunition.

According to this same Mobile source, meetings are held by the MCC at the residence of Dr. MURDOCK in Mobile, on Wednesday nights and Sunday mornings. These meetings are called church services and include the playing of tapes of a religious nature prepared by Rev. WILLIAM P. GALE.

According to INFORMANT on 9/14/72, information had been given that Rev. GALE was to visit Mobile, for meetings with the "Identity Group" in October, 1972. GALE arrived in Mobile,

on 10/3/72, and at a meeting at the residence of Dr. MURDOCK the night of 10/5/72, GALE said that people who were trying to push the Jews ahead should be taken care of. GALE was not specific in this regard, but did point out before the end of his talk that he was not advocating revolution.

Three members of the MCC at Mobile, were interviewed during late 1972, and described the MCC, Aka "Identity Group" at Mobile, as a church group. They disclaimed any talk of violence or the stockpiling of arms and ammunition or of any type of military drills.

The "Identity" publication of September, 1972, contains an article on pages two and three, on the Posse Comitatus. It sets forth that if a local sheriff refuses to perform lawful duty in the jurisdiction of local citizens, the Posse Comitatus has the lawful right under natural law to act in the name of the sheriff to protect local jurisdiction. Arrests may be made and criminals remanded to the custody of the sheriff for a trial by citizens jury.

INFORMANT who attends meetings of the "Identity Group" in Mobile, has advised that at a meeting of the MCC at the residence of Dr. MURDOCK on the night of 11/15/72, MURDOCK said the Posse Comitatus had been formed to force the sheriff to enforce the law and arrest judges or political tools of the Jews who go against the constitution and on arrest and convictions, take them to the public square and hang them for treason.

This same source advised that at a meeting of the "Identity Group" at Mobile, on the night of 12/20/72, MURDOCK said the only way the world will ever be straight is to wipe out the Jews and send all the Negroes back to Africa.

INFORMANT also advised that at a meeting of the "Identity Group" in Mobile, on 1/26/73, Dr. MURDOCK said that Congressman JACK EDWARDS of Mobile, had sold out to the "kikes" and someone would have to kill him after the second term (it is noted that EDWARDS is now in his fifth term as Congressman and informant feels that the reference to killing of EDWARDS pertained to a political killing).

INFORMANT also advised that at a meeting of the "Identity Group" in Mobile, on 2/14/73, MURDOCK said that the "Identity Group" has posse groups in 40 states. He referred to BILLY GALE

MO 157-5095

as the head of the Posse Comitatus and as a prophet.

1A } This same informant reported that at a meeting of the "Identity Group" at Mobile, the night of 2/21/73, it was reported that several persons attending had ordered water purification tablets through Dr. MURDOCK. No precise reason was given why they would be needed. One member of the group, JESSIE L. ~~THRIFT~~, is planning to run for Governor of Alabama, and his political literature referred to him as the "Hanging candidate for Governor". Another member, JEFF ~~CARDEN~~, is planning to run for Sheriff of Mobile County, and his political literature refers to him as "the hanging sheriff".

INFORMANT also advised that at a meeting of the "Identity Group" at Mobile, on 2/28/73, Dr. MURDOCK made a statement about "when we go get that Federal Judge", without naming anyone in particular.

1 } A tape was played of Rev. GALE in which GALE said that the "Identity Group" has the constitutional right to form a well regulated militia to take action against elected officials to do not uphold the constitution. MURDOCK at this meeting said the object of the Posse Comitatus is to kill and that if anyone is not up to it he should drop out now.

Based on the information developed to date by Mobile and Los Angeles, it is felt that a separate investigation of the MCC, Aka "Identity Group" should be instituted to develop information concerning the activity on this group on a national basis, including any plans for the collection of guns and ammunition or plans to commit any acts of violence or any other illegal activity.

(As indicated above, Los Angeles should furnish the Bureau with its comments concerning this recommendation.)

This is to advise of extremist philosophy espoused by captioned group and individuals connected with it. We are instructing Los Angeles and Mobile to vigorously pursue investigation concerning captioned group because of possibility of seditious conspiracy, insurrection and advocating overthrow of lawful Government authority as well as possible violations of Federal and state gun control laws.

William Potter Gale, Glendale, California, apparently initiated the Identity Group which is also known as Ministry of Christ Church (MCC), which has been described as a cover for an "underground army." He is the self-proclaimed Minister of the church and is considered a "Prophet." Dr. Church Elwood Murdock, Jr. is the leader of the group in Mobile, Alabama, and regularly holds bible study meetings in his home. Murdock is a practicing physician and surgeon. The group allegedly has 15 members in the Mobile area and is represented by individuals in 40 states. (Specific states not indicated.)

Both Gale and Murdock have long histories of advocating violence. Gale has stated this country has to be cleaned up and the only way to accomplish this would be to kill every FBI Agent and every Internal Revenue Service Agent. He claimed he was organizing to kill all who opposed Jesus. Murdock, based on Gale's philosophy, advocates formation of a "Posse Comitatus," a voluntary group of citizens who would act in the name of local Sheriffs to enforce the law. Murdock said the priorities of the Posse Comitatus are: (1) Federal judges; (2) Jews; (3) Negroes. Murdock, Noah Jefferson Carden and Jesse Lewis Thrift have advocated using the Posse and the "legal Christian law" to hang Federal Judge Virgil Pittman and Mobile County Juvenile Court Judge James T. OO:LA

The following information is being furnished to the Bureau concerning the Ministry of Christ Church (MCC), Aka "Identity Group", with the recommendation that active investigation be instituted concerning this group which reportedly has a policy of advocating and condoning acts of force and violence to deny others rights under the constitution.

Los Angeles has advised that MCC was incorporated in the state of California, 10/19/64, with its stated primary purpose being the establishment, maintenance, and conducting of a church of the christian faith; the principal office for the transaction of business was given as Los Angeles County, California, and one of the directors was WILLIAM POTTER GALE.

Mobile is OO in the EM-WHG Investigation of Dr. CHURCH ELWOOD MURDOCK, JR., MOfile 157-4515, BUfile 157-24887. He is leader of the MCC in Mobile, which is under the national leadership of WILLIAM POTTER GALE, Glendale, California. MURDOCK has been recommended for the ADEA.

Los Angeles is OO in the EM-WHG Investigation of WILLIAM POTTER GALE, LAfile 157-571, BUfile 62-105253.

Los Angeles should furnish its recommendation to the Bureau concerning conducting active investigation of this organization.

Pertinent information concerning the MCC is set forth for the Bureau's information.

Los Angeles letter to Mobile, dated 7/20/72, under the caption of WILLIAM POTTER GALE set forth that LA 7176-E (Prob) had advised on 3/3/72, that at a meeting of the "Identity

Group" in Morepark, California, 2/23/72, a speaker referred to themselves as patriotic revolutionaries who would lead in putting down the Communist-Jew-Negro Conspiracy and said that the coming blood bath would free their country. It was also said that CSLA 5114-E reported on 6/6/72, that persons in attendance at meetings of the MCC in Glendale, California, had openly advocated the overthrow of the Government and elimination of President Nixon.

In report of SA ALBERT N. CARLBLOM, 10/17/72, Los Angeles, captioned "WILLIAM POTTER GALE", it was set forth that CSLA 5791-E on 10/11/71, had described the MCC as not like any other church and as being a cover for an underground Army.

Page 6 of this report set forth information from LA 7176-E (Prob) that six members of the "Identity Group" had been meeting on weekends and practiced shooting. They possessed firearms and claimed they were going to strike the first blow.

It is noted that "Identity" is a publication of the MCC, Post Office Box 423, Glendale, California, and is published quarterly.

This report sets forth on page 10, that DL 393-E, on 8/1/72, had reported that GALE had organized a Christian Posse Association and was using the publication "Identity" to promote it. He urged formation of Christian Posses across the country to fight the so called enemies of America, such as the Federal Government.

On 2/24/72, MO CS 686-E, advised that Col. BILLY GALE had organized posses throughout the country and expected that these groups would have radio contact. This source attended meetings at the residence of Dr. CHURCH ELWOOD MURDOCK in Mobile, in April, 1972, at which tapes prepared by Col. GALE were played. During these meetings of the MCC at the residence of Dr. MURDOCK, there was talk about firearms but no information was developed concerning any supply of guns, or ammunition.

According to this same Mobile source, meetings are held by the MCC at the residence of Dr. MURDOCK in Mobile, on Wednesday nights and Sunday mornings. These meetings are called church services and include the playing of tapes of a religious nature prepared by Rev. WILLIAM P. GALE.

According to MO CS 686-E, on 9/14/72, information had been given that Rev. GALE was to visit Mobile, for meetings with the "Identity Group" in October, 1972. GALE arrived in Mobile,

on 10/3/72, and at a meeting at the residence of Dr. MURDOCK the night of 10/5/72, GALE said that people who were trying to push the Jews ahead should be taken care of. GALE was not specific in this regard, but did point out before the end of his talk that he was not advocating revolution.

Three members of the MCC at Mobile, were interviewed during late 1972, and described the MCC, Aka "Identity Group" at Mobile, as a church group. They disclaimed any talk of violence or the stockpiling of arms and ammunition or of any type of military drills.

The "Identity" publication of September, 1972, contains an article on pages two and three, on the Posse Comitatus. It sets forth that if a local sheriff refuses to perform lawful duty in the jurisdiction of local citizens, the Posse Comitatus has the lawful right under natural law to act in the name of the sheriff to protect local jurisdiction. Arrests may be made and criminals remanded to the custody of the sheriff for a trial by citizens jury.

MO 563-E who attends meetings of the "Identity Group" in Mobile, has advised that at a meeting of the MCC at the residence of Dr. MURDOCK on the night of 11/15/72, MURDOCK said the Posse Comitatus had been formed to force the sheriff to enforce the law and arrest judges or political tools of the Jews who go against the constitution and on arrest and convictions, take them to the public square and hang them for treason.

This same source advised that at a meeting of the "Identity Group" at Mobile, on the night of 12/20/72, MURDOCK said the only way the world will ever be straight is to wipe out the Jews and send all the Negroes back to Africa.

MO 563-E also advised that at a meeting of the "Identity Group" in Mobile, on 1/26/73, Dr. MURDOCK said that Congressman JACK EDWARDS of Mobile, had sold out to the "kikes" and someone would have to kill him after the second term (it is noted that EDWARDS is now in his fifth term as Congressman and informant feels that the reference to killing of EDWARDS pertained to a political killing).

MO 563-E also advised that at a meeting of the "Identity Group" in Mobile, on 2/14/73, MURDOCK said that the "Identity Group" has posse groups in 40 states. He referred to BILLY GALE

MO 157-5095

as the head of the Posse Comitatus and as a prophet.

1A. This same informant reported that at a meeting of the "Identity Group" at Mobile, the night of 2/21/73, it was reported that several persons attending had ordered water purification tablets through Dr. MURDOCK. No precise reason was given why they would be needed. One member of the group, JESSIE L. THRIFT, is planning to run for Governor of Alabama, and his political literature referred to him as the "Hanging candidate for Governor". Another member, JEFFY CARDEN, is planning to run for Sheriff of Mobile County, and his political literature refers to him as "the hanging sheriff".

MO 563-E also advised that at a meeting of the "Identity Group" at Mobile, on 2/28/73, Dr. MURDOCK made a statement about "when we go get that Federal Judge", without naming anyone in particular.

1 A tape was played of Rev. GALE in which GALE said that the "Identity Group" has the constitutional right to form a well regulated militia to take action against elected officials to do not uphold the constitution. MURDOCK at this meeting said the object of the Posse Comitatus is to kill and that if anyone is not up to it he should drop out now.

Based on the information developed to date by Mobile and Los Angeles, it is felt that a separate investigation of the MCC, Aka "Identity Group" should be instituted to develop information concerning the activity on this group on a national basis, including any plans for the collection of guns and ammunition or plans to commit any acts of violence or any other illegal activity.

As indicated above, Los Angeles should furnish the Bureau with its comments concerning this recommendation.

This is to advise of extremist philosophy espoused by captioned group and individuals connected with it. We are instructing Los Angeles and Mobile to vigorously pursue investigation concerning captioned group because of possibility of seditious conspiracy, insurrection and advocating overthrow of lawful Government authority as well as possible violations of Federal and state gun control laws.

William Potter Gale, Glendale, California, apparently initiated the Identity Group which is also known as Ministry of Christ Church (MCC), which has been described as a veritable "underground army." He is the self-proclaimed Minister of the church and is considered a "Prophet." Dr. Church Elwood Murdock, Jr., is the leader of the group in Mobile, Alabama, and regularly holds bible study meetings in his home. Murdock is a practicing physician and surgeon. The group allegedly has 15 members in the Mobile area and is represented by individuals in 40 states. (Specific states not indicated.)

Both Gale and Murdock have long histories of advocating violence. Gale has stated this country has to be cleaned up and the only way to accomplish this would be to kill every FBI Agent and every Internal Revenue Service Agent. He claimed he was organizing to kill all who opposed Jesus. Murdock, based on Gale's philosophy, advocates formation of a "Posse Comitatus," a voluntary group of citizens who would act in the name of local Sheriffs to enforce the law. Murdock said the priorities of the Posse Comitatus are: (1) Federal judges; (2) Jews; (3) Negroes. Murdock, Noah Jefferson Carden and Jesse Lewis Thrift have advocated using the Posse and the "legal Christian law" to hang Federal Judge Virgil Pittman and Mobile County Juvenile Court Judge James T. Strickland. (Both Pittman and Strickland have been advised of these plans.) Murdock also stated during 1/73

that someone would have to kill Congressman Jack Edwards. (Edwards, from the Mobile area, was advised of this threat at the time by Inspector David Bowers.) Murdock has also advocated non-payment of Federal taxes.

Carden was one of the original organizers of the Southerners, a white-hate organization in Mobile. He was ostracized from that organization because of his violence-prone ideas. He reportedly has a list of approximately 12 persons who are Jewish whom the group plans to kill in the Mobile area. According to Murdock, Carden plans to run for local Sheriff and Thrift plans to run for Governor of Alabama. They have distributed literature identifying Carden as the "hanging Sheriff" and identifying Thrift as "the hanging candidate for Governor."

Thrift was a former leader in the Southerners but was also dropped from the Southerners because of his violence-prone philosophy.

Pertinent information noted above has been disseminated to interested U. S. Government agencies and local law enforcement agencies.

Since the group has held meetings in Mobile as recently as February and March, 1973, Los Angeles and Mobile should vigorously pursue investigation concerning captioned group and conduct investigation to identify individual members of the group who advocate violence. Both offices being instructed to insure that all individuals interviewed are specifically advised we are not interested in legitimate church activities.

EXTREMIST MATTER - WHITE HATE

Reference is made to Mobile airtel enclosing letterhead memorandum (LHM) both dated 3/8/73 concerning Dr. Church Elwood Murdock, Jr.

A review of Bureau files pertaining to William Potter Gale (Los Angeles File 157-571) (Bureau File 62-105253); Noah Jefferson Carden (Mobile File 157-517) (Bureau File 157-1601); Jessie Lewis Thrift (Mobile File 157-4259) (Bureau File 157-25289); and file pertaining to Murdock (Mobile File 157-4515) (Bureau File 157-24687) indicates investigation is warranted to fully develop information regarding specific aims and purposes of the captioned group and individuals connected therewith. Bureau files reveal that subject Gale is a 56-year-old retired Army officer currently active as Pastor of the Ministry of Christ Church (MCC), Glendale, California. For many years, he has advocated violence against Federal officials, blacks and Jewish elements. He has specifically encouraged tax rebellion and urged the killing of FBI and Internal Revenue Service Agents. He has been a leader in the past in hate-type organizations of a quasi-religious nature.

Gale's MCC publishes a document quarterly entitled "Identity." Recent issues have set forth information regarding a group called the USCPA. Per "Identity," USCPA was reportedly formed under the auspices of the MCC to assist and provide the necessary direction toward formation of a "Christian Posse" in every county in the U.S. Upon application by a minimum of seven Christian citizens from a given county, the USCPA will grant the

group a charter as a "posse." If the local sheriff in a county with a "posse" fails to perform his lawful duty when "unlawful acts" are committed by Government officials or agencies, the "posse," per USCPA, then possesses the right to arrest, try, convict and punish the "offenders."

Bureau airtel to Los Angeles and Mobile 3/21/73, captioned "Identity Group, aka Ministry of Christ Church, EM - WHG," set forth instructions for investigation to be vigorously pursued concerning an "Identity Group" initiated by Gale, and associated with MCC, which was described as a cover for an "underground army." A 15-member "Identity Group" active in the Mobile, Alabama, area under the leadership of Dr. George Alwood Murdock, Jr., was reportedly forming a "Posse Comitatus" in line with the USCPA precepts outlined above. Murdock is a 47-year-old physician with a long history of advocating violence based on bigotry.

Bureau airtel to Detroit 3/26/73 captioned "United States Christian Posse, EM - WHG," issued instructions regarding investigation of the USCPA Michigan Division group. This group was formed in Ortonville, Michigan, in the Fall of 1972, and includes several members with prior Klan and Minutemen affiliation. Spokesman for this group is Willard Allan Coulter, a 46-year-old white male of Gregroy, Michigan. This group also follows precepts of Gale's USCPA.

Various sources have reported that Gale is capable of violence and in June, 1972, an MCC contributor reportedly traveled to Phoenix, Arizona, and purchased guns, ammunition and silencers for him. In May, 1972, the MCC purchased about 100 acres of undeveloped land in Mariposa County, California, for \$38,000 to be used as a para-military training base. One of Gale's bulletins to his followers stated he was seeking to organize to create a tax rebellion with eventual overthrow of the U. S. Government. He feels violence and militarism are necessary for returning this country to Christianity.

Data has also been developed that Middle East elements in the U.S. with ties to the terrorist Al Fatah organization have expressed an interest in Gale and received briefings regarding him and his organization. These elements are apparently considering contacting Gale to seek possible assistance for their cause.

In view of above information, it appears that the MCC, the "Identity Group" and the USCPA are all basically related, if not synonymous, and are under the overall direction and control of Gale. Vigorous investigation should be pursued by recipients to fully resolve the origin, nature and activities of each of these organizations active within respective territories, as well as identifying members with a propensity for violence. Determine if chapters or similar groups or "posses" are active in other areas of the U.S. Los Angeles is being designated office of origin regarding the USCPA and should coordinate related activities of the MCC and "Identity Group." Recipients should be alert for any indications Middle East terrorist elements are seeking assistance of Gale and his organizations.

Los Angeles should expeditiously prepare summary report regarding Gale and submit recommendation for including him in ADEX. Follow his extremist activities and travels on a regular basis and target informants regarding him.

Los Angeles should also obtain, review and analyze each issue of "Identity" published and submit copies of each issue to the Bureau along with cover letter containing analysis of contents. Pertinent information of extremist nature contained in this publication should also be included in communication suitable for dissemination.

Under first caption above, Los Angeles should promptly submit LHM incorporating therein all pertinent information developed to date regarding the USCPA.

Sacramento should promptly advise Bureau and appropriate offices, in form suitable for dissemination, of all current information known regarding land purchased in Mariposa County, California, by the MCC and possible use of this land as a para-military training base.

The SPC, also known as the Citizens' Law Enforcement Research Committee (CLERC), is a loose-knit nationwide organization established in Portland, Oregon, in 1973, by Portland resident Henry Lamont (Mike) Beach. The SPC is a non-affiliated off-shoot of the Identity Group (IG), a California based tax rebellion organization. The SPC claims that the Federal Reserve System and the graduated income tax are "ultra vires and not lawful," and that the Federal judiciary has attempted to establish "a dictatorship of the courts over the citizens of the Republic."

Re: Sheriff's Posse Comitatus (SPC), aka

NOTE CONTINUED:

The SPC calls for the establishment of a posse in each county to assist the only legitimate law enforcement authority, the county sheriff, in combating the unlawful acts of others, particularly those of Federal and state officials.

Members and leadership of the SPC have voiced hatred for Jews and Negroes, advocated the assassination of Federal law enforcement agents, and have engaged in acts of provocation and assault against Federal and other law enforcement officials. For example, in August, 1974, an Internal Revenue Service Agent on official business was held captive by seven members of the SPC in Wisconsin. The Agent, although released unharmed, was pushed and subjected to questioning by the SPC. As a result of that incident, SPC member Thomas Stockheimer has been indicted for assaulting a Federal officer and awaits trial. Both Stockheimer and other SPC members, in addressing an SPC tax rally held in Eureka Springs, Arkansas, in February, 1975, called for violence, including tarring and feathering, hanging and assassinations, against state and Federal law enforcement officers. Stockheimer and other SPC members at that rally voiced hatred for Jews and blacks, and stated that Secretary of State Henry Kissinger should be assassinated.

IG and SPC are interrelated but separate organizations. In Memorandum J. G. Deegan to Mr. W. R. Wannall dated 3/4/75, captioned "Identity Group, Also Known As Ministry Of Christ Church," we updated IG predication by eliminating SPC. This is a follow-through of the above, and we are submitting a separate predication for SPC.

A review of information in possession of the Bureau fails to reveal that a statutory basis still exists for the investigation of the captioned organization. The group appears to be only prison-connected and while there were indications that the group intended to use force and violence in connection with racial problems and to engage in rebellion, insurrection and destruction at California prisons, its activities have not substantiated this. Unless you possess additional information which would preclude such action, you should discontinue active investigation of the group.

Should you receive information which would indicate that the group is established outside of prisons and planning to conduct activities in order to attain its original aims and purposes, you should then reinstitute active investigation in accordance with existing instructions.

political or revolutionary goals. As no information has been developed to indicate that the Aryan Brotherhood is engaged in extremist activities, it does not qualify as an extremist organization as defined in Manual of Instructions, Volume IV, Section 122, page 1b. Receiving offices are, therefore, instructed to discontinue extremist investigations of Aryan Brotherhood and its individual members.

In referenced Sacramento letter dated 5/7/74, Sacramento advised that through established liaison with officials of the California Department of Correction they would monitor activities of Aryan Brotherhood and advise the Bureau in an appropriate communication of incidents indicating extremist activity by the captioned organization. In view of fact we have no basis for extremist investigation, any activities along this line should be followed and reported under Civil Unrest or Riots until such time as extremist acts are uncovered. Should this occur, Sacramento provide all offices in receipt of this communication with such information.

A review of referenced Portland LHM dated 6/30/75 failed to indicate information contained therein would constitute a violation. Offices should, however, remain alert for any criminal violations that fall within FBI jurisdiction.

Portland LHM dated 6/30/75 is being disseminated at Headquarters to Drug Enforcement Association (DEA) and Bureau of Alcohol, Tobacco and Firearms (BATF). Portland should furnish copies locally to DEA and BATF pointing out facts concerning source of this information. Receiving offices insure that appropriate Federal, state and local law enforcement agencies are advised of pertinent portions of this communication, particularly escape plans and the activities at various penal institutions.

Re: Aryan Brotherhood, aka

NOTE: Aryan Brotherhood, captioned group, composed of white males, is headquartered within the California Prison System. The basic aims of the Aryan Brotherhood are the control of activities within the prison system and carrying out of illegal activities, primarily the sale of narcotics. These aims are accomplished through acts of violence performed by members of the group.

Portland airtel and LHM dated 6/30/75 contains information from source of Official California Department of Corrections regarding individuals trafficking and purchasing automatic weapons. FBI conducted agency checks and confirmed address and occupation of individuals mentioned by above source. Seattle source, arrested twice in 1975 for narcotics violations, provided information regarding narcotics violations by Aryan Brotherhood, which she was involved in. Source also discussed escape plan by member of Aryan Brotherhood and provided information regarding contacts Aryan Brotherhood has outside prison that coordinate finances and illegal activity.

Portland recommended Sacramento be designated office of origin in Aryan Brotherhood investigation, that separate Aryan Brotherhood investigations be opened on the two principals mentioned in referenced LHM, that DEA and BATF be advised of contents of LHM, that Bank Fraud and Embezzlement investigation be initiated in San Francisco, and that escape information regarding an Aryan Brotherhood member be disseminated to prison officials in California.

California offices initiated preliminary investigation regarding captioned Organization in 1973, and to date have found no evidence of extremist activities by Aryan Brotherhood.

Supervisor James H. Yelvington, Division 6, after review of Portland LHM dated 6/30/75 stated that this communication contains no information indicating violation of 92 classification.

Supervisor Paul M. Cavanaugh, Division 6, after review of Portland LHM dated 6/30/75 advised there was no Bank Fraud and Embezzlement violation contained in this communication.
